VOLUME 31

RECORDS CRASH AT SCHOOLS TRACK SPORTS

Penticton Captures High School Honours, While Kelowna Leads Public School Division

Eight records were smashed and five were equalled at the thirteenth annual Inter-Scholastic Okanagan Valley Track Meet, held in Athletic Park on Saturday under ideal weather conditions.

While entries in the meet were smaller than usual owing to restrictions imposed by medical health officers, which prevented Vernon schools athletes from competing, the southern schools, notably Penticton, were strongly represented. It had been understood that Armstrong would not be represented this year, but several of their best High School track and field men put in an appearance and made a remarkably good showing.

Outstanding performances in the High School division made Penticton's easy winner in this section. The southern school scored 106 points to Kelowna's 54, while the good work of Mack Lynch, who won the mile and the half-mile fairly easily, and C. Hamilton, who captured the 440, was largely responsible for Armstrong's 20 points.

After fighting neck-and-neck in the Elementary School division throughout the day, the Orchard City student athletes nosed out Penticton by three points, Kelowna's final score being 69 against Penticton's 66. At noon, Penticton led by four points; at 2.30, Kelowna had gained a one-point lead; little more than an hour later the southern school had reversed the standing. Kelowna, however, rallied in the last events to forge ahead by three points.

It is notable that of the eight new records that were established on Saturday, Kelowna High and Public School athletes were responsible for all but two—the new mark of 11 3/5 seconds set in the low hurdles for girls under 21 by June Swindle, of the Penticton Public School, and the new time of 36 4/5 secs. in the Public School girls' relay set by Penticton. Record breaking performances made by the Kelowna contingent were made by Lyle Sanger, whose leap in the high jump for boys under 14 measured 4 ft. 6 1/2 ins.; Jim Tostenson, who vaulted 8 ft. 9 ins. in the pole vault for boys under 16; Joan McCall, fleet Kelowna High sprinter, who covered the 12 yards dash for girls under 21 in 12 seconds flat; the Kelowna Public School boys' relay team, which reduced the time in this 440 yards event to 50 4/5 seconds; the Kelowna High School girls' relay team, which sped over the same distance in 53 4/5 seconds; Marion Todd, Kelowna High cinder ace, who set the new mark of 9 seconds in the 75 yards dash for girls under 18.

Most of the records equaled were in the short distance junior events. One of the features of the afternoon sports was an exhibition 100 yards dash between Allan Poole, the Kelowna star, and "Rusty" Martin, another promising Orchard City sprinter. Poole gave Martin a start of eleven yards, too great a handicap for the member of the Canadian team at last year's British Empire Games to overcome. Fast time was reported unofficially.

The events were run off efficiently. Continued on page 6

KNIGHTS OF COLUMBUS TO CONVENE HERE THIS WEEK

Convention Of The Order Will Be Held Here On Friday And Saturday

The annual provincial convention of the Knights of Columbus will be held in Kelowna on Friday and Saturday, May 24th and 25th, marking the first convention of the order to be held in this city.

Delegates from Vancouver Island and Coast points are expected to arrive early on Friday morning, while Interior delegates will arrive on Thursday evening.

The convention will be presided over by State Deputy H. A. Colgan, of Vancouver.

ROTARIANS ATTEND DISTRICT CONFERENCE

Bill Cross Attends Youths' Conference At Same Time

In attendance at the annual conference of Rotary Clubs, District No. 1 at Bellingham, on May 19th, 20th and 21st, were the following: Rotarians and Rotary Auxiliary members, Mrs. W. R. Trench, Mrs. W. M. Madding, Mr. and Mrs. Cliff Burns, Mr. and Mrs. B. McDonald, Mr. and Mrs. C. T. Hubbard, Mr. Geo. Anderson, Mr. and Mrs. E. L. Cross, Mr. and Mrs. Walter Hamilton and Mr. J. M. Brydson. Accompanying the party was Bill Cross, who was sent by the Kelowna Rotary Club to attend the Youths' Conference of boys held in conjunction with the annual convention.

In order that the male youth of the community may know something of the work of Rotary, one of the High School students is being invited to attend the weekly meetings of the Club. For the present month, Allan McKenzie is a regular visitor.

COMMERCIAL SHIPPERS ON WAR PATH

Resolve To Break Silence And To Challenge "Wild And Contradictory" Statements

Mr. R. W. McDonald, President of the Commercial Shippers' Association, issued the following statement to the press on Tuesday:

"As a result of the meeting held on Monday, May 20th, 1935, the Directors of the Commercial Shippers' Association came to a definite decision that they will no longer remain silent and allow the wild and contradictory statements which are being made to pass unchallenged.

"They feel that an attempt is being made to cloud the real issues, and therefore intend to keep their own growers fully informed through the press as to the true facts of the situation, and they will not hesitate to appeal to the Dominion Marketing Board should the present tactics of discrediting shippers be continued.

"The Commercial Shippers' Association feel that, in general principles, the scheme in effect last year, if properly administered, provides a satisfactory method of control at a minimum cost, and the Association intends to publish next week in the press a complete exposition of the Cartel principle, and, in addition, will show that, following such Cartel principle, it is possible to give to the grower everything that he has in mind.

Following a general meeting of the Association in Kelowna on Monday morning, when Major M. V. McGuire, Secretary, who returned on Saturday from Ottawa, where he presented a brief on behalf of the shippers to the Dominion Marketing Board, made his report, a meeting of the Directors was held in the afternoon to decide what action should be taken by the Association. The decision of that meeting is outlined succinctly in the foregoing statement.

Major McGuire Reports On Visit To Ottawa

Presenting his report at the general meeting, which was presided over by President McDonald, and was representative of the valley shippers, Major McGuire stated that, with Mr. F. E. R. Wollaston, of the Coldstream Ranch, and Mr. F. M. Buckland, of Kelowna, he arrived in Ottawa on May 17th. A brief had been prepared in which objection to a dual agency was outlined. It was pointed out that the deal last year was ill-administered and not satisfactory. The shippers' opinion of the way in which the dual agency proposal had been put forward was also given. The fact that no consultation with the shippers or growers had been held and that the straw vote taken had resulted in nothing definite on dual selling, was stressed in the 18-page brief.

The Minister of Agriculture was away, but Major McGuire had a short interview with Hon. Grote Stirling. He also got in touch with Major Wheeler, Fruit Commissioner, and Capt. L. F. Burrows, Secretary of the Canadian Horticultural Council. On May 7th, by Horticultural Council.

(Continued on page 8)

RAMSAY MACDONALD MAY RETIRE SOON

Condition Of Eyes Likely To Force Early Resignation

LONDON, May 23.—That Stanley Baldwin will replace Ramsay MacDonald as Premier within the next three weeks became virtually certain today in consequence of a news report received from the Prime Minister's oculist. Mr. MacDonald's eyes have given him trouble for several years past, necessitating repeated operations, and apparently further trouble has developed.

Mr. Baldwin will have a free hand to reconstruct the cabinet, as resignation of the head of the government involves resignation of the whole personnel of that body.

AUGMENTATION OF ROYAL AIR FORCE

Great Recruiting Campaign Already Under Way

LONDON, May 23.—The greatest recruiting campaign ever undertaken by the Royal Air Force got under way today, immediately after announcement by the Government of their programme to triple the first line home fighting force within two years. Recruits offering themselves for service in the Dominions and the colonies will be welcomed, the announcement states.

Altogether, 2,500 pilots and 20,000 skilled and unskilled workers will be needed before April of next year. This is in addition to the present strength of about 34,000. The expansion programme will result in bringing reservists back into service and retention for a time of retiring personnel.

The Under-Secretary for Air told the House of Commons that the Government had in production a type of heavy bombing plane which it believes to be superior to any bomber owned by foreign countries. He added that they expected shortly to have some newer types of fighting planes more advanced in performance than those of any other country.

COMMUNISTS CREATE RUMPUSS AT GUILDHALL

Police Quell Disturbance By Reds As King And Queen Arrive

LONDON, May 23.—The King and Queen last night set a precedent by attending the brilliant civic Jubilee reception and ball in the Guildhall. There is no record in the archives of the Guildhall of a reigning sovereign and his consort visiting in person a ball given there in their honour. It is ninety-seven years since Queen Victoria in the year of her coronation attended the Lord Mayor's banquet, the last occasion on which the reigning sovereign was present at an evening function in the Guildhall.

A clash between shouting, jeering Communists and mounted and foot police occurred shortly before their Majesties arrived. The Communists, singing the "Internationale," shouted "Your fine robes would buy us bread" and "Our families are starving" as regular constables, reinforced by scores of extra police, pushed them back.

Given by the Lord Mayor and the Corporation of London, the ball eclipsed in grandeur other functions for which the City is noted. A glittering throng of nearly two thousand persons had been present for two hours before the King and Queen arrived. They were received by the Lord Mayor and the Lady Mayoress, with the colourfully garbed sheriffs in attendance.

BREWSTER CUP IS WON BY MRS. CRAIG

Kelowna Ladies' Captain Will Represent Okanagan Valley At Banff Tournament

Playing a steady game throughout, Mrs. H. V. Craig, Captain of the Ladies' Section of the Kelowna Golf Club, won the Brewster Cup competition in the final on Sunday, when she defeated Mrs. Ann McClymont on the eighteenth, one up.

The match, followed with keen interest by a large gallery, was a closely fought contest all the way. Mrs. Craig's last putt deciding the winner. It is notable that she also played in the final last year, losing to Miss Constance Hickman, also of the Kelowna club.

The Brewster Cup competition, open to Okanagan Valley women golfers, was inaugurated four years ago, when Mr. J. Brewster, of the Brewster Transport Company, of Banff, donated the Brewster Cup, emblematic of the valley championship. The trophy carried with it a free trip to the Banff open tournament in August, with all expenses paid by the donor of the cup.

Mrs. Craig is the fourth Kelowna woman to win the coveted trophy and replica. Winners to date are as follows: 1931, Mrs. H. L. Bruce, then a resident of Kelowna; 1932, Mrs. DeWolfe, of Vernon, who also captured premier honours at the Banff tournament in that year; 1933, Mrs. Dan Currell; 1934, Miss Hickman; 1935, Mrs. Craig.

This year there were fourteen entries—three from Summerland, one from Vernon and the balance from Kelowna. The eight who qualified on Saturday made the low medal score of 96; Miss Greaves, of Vernon; Mrs. Craig, Mrs. D. E. Oliver, Mrs. A. S. Underhill, Mrs. MacLaren and Miss Eileen Currell, of Kelowna; and Mrs. Henry, of Summerland.

The consolation flight was won by Miss Currell, with Mrs. MacLaren, runner-up. The first flight was captured by Mrs. J. D. Pettigrew, Mrs. J. H. Broad being the runner-up.

The long driving contest was won by Miss Currell, who drove the ball a distance of 104 yards. Mrs. Oliver, 102 yards, was second.

Miss Currell made the long drive aggregate, with Mrs. Craig second.

Mrs. Oliver won the putting competition. Tea was served on the club verandah, which was attractively decorated with tulips kindly donated by Mrs. R. Reid. The prizes were presented on the lawn by Mrs. Chas. Quinn.

Great thanks to all who had helped to make the tournament a success, including the merchants who donated prizes, Messrs. Quinn and H. A. Willis, who were in charge of the competition, and those who assisted in serving lemonade.

TREE FRUIT BOARD SUMMONS MEETING

Growers Urged To Attend In I.O.O.F. Temple On Tuesday Night

Growers and all others interested are urged to attend a meeting called by the Tree Fruit Board in the I.O.O.F. Temple on Tuesday evening next, at 8 o'clock when presumably all members of the Board will be in attendance to speak and answer questions by the growers.

The object of the meeting is to deal with the various rumours—many of which, states the Board, are without foundation—that have been in circulation during the past few weeks.

ALL READY FOR EMPIRE DAY MEET

Pet Parade, Softball, Baseball, Field And Track Events, Wrestling And Whirlwind Wind-up

The Gyros have the stage all set and the performers ready for the Empire Day Track and Field Meet in Athletic Park tomorrow (Friday). The Western Man has been consulted and his prophesies are encouraging.

The pet parade, the kiddies' own event, will start the day's proceedings, and entries appear to be heavier than ever before. Dogs, cats, chickens, pigeons, ponies, rabbits and many other varieties of common and not so common pets will be arrayed in their best for this gala occasion.

The softball tournament, which is also featured on the morning programme, has attracted no less than seven entries. Two teams from Vernon, two from Penticton and three Kelowna squads will be competing for honours. This will mark the first occasion on which Kelowna teams will have had the opportunity of testing their strength against other valley softballers.

Galaxy Of Stars For Track Meet

The Track and Field Meet, the main feature of the day which will get under way at 1 p.m., promises to be even more thrilling than in former years, as the very foremost among the British Columbia track and field stars will be on deck to display their wares. In many cases, they represent 1936 Olympic material.

Howie McPhee and "Marsh" Limon, the sensational pair of sprinters who were outstanding on the Canadian team which invaded Australia last year, will both be on hand, together with Martin Naylor, present B. C. titleholder for the century dash, Jack Harrison, the "Flying Con," Hal Odium and Ken Brown. Joe Addison and Chuck Cunningham, of Victoria, with four other members of the Y.M.C.A. track team, which was so successful at the New Westminster Indoor Meet, will also compete.

The New Westminster Athletic Association is sending its star aggregation of Gilley, Trowse and Collier. A six-man team will arrive from Kamloops, headed by Jack Chappell, Interior champion miler. Allan Foote and his team mates are the first class condition and will provide a mighty battle in every event for the Coast "shock troops."

The girls' events have a first-rate entry list, headed by Mary Frizzell, B. C. champion sprinter and a member of the Canadian team which competed in last year's British Empire Games. Helen Reeves, second only to Mary in the sprints, will also attend, and the race between these two Coast girls and Kelowna's Joan McCall and Marion Todd will be one of the features of the day.

In addition to the foregoing, numerous entries have been received from Nelson, Trail, Rock Creek, Revelstoke, Peachland, Oliver, Summerland, Vernon and Armstrong. In short, the best athletes available in B. C. will drive spikes into the track tomorrow. Allan Poole will face the best short distance men in the province and will be out to repeat his thrilling victory of last year. "Rusty" Martin is another Kelowna sprinter who promises to be a "bee" of the afternoon's fishing.

Following the track and field events, Kelowna and Beaverdell will engage in a baseball duel.

The Whirlwind Wind-up

In the evening, at the Scout Hall comes the Whirlwind Wind-up. Two fast, clean wrestling bouts, and a novelty exhibition, sponsored by the Kelowna Physical Culture Club, will open the evening's show. The main event being contested together, Ted Ennis, 160 pounds, and Ed. Williams, 162, both local boys and good showmen. A midway with games and sideshows, under the care of expert Gyro barkers, will be in operation, and dancing to excellent music, with a good floor show, is also on the bill.

There will be something doing all the time in Kelowna on Empire Day, and the Gyros are confident that a new high mark for a May 24th celebration will be set tomorrow.

IMPROVEMENT OF BEAVER LAKE ROAD

Working Party Planned For Morning Of May 24th

During the past month working parties, under the leadership of Messrs. Bill Spear and W. R. Maxson, of the Kelowna Rod & Gun Club, have been engaged on the Beaver Lake road so as to give the public access to the lake to fish on May 24th, and the road is now open up to three-quarters of a mile from the lake.

It is now proposed by the Club to have a "bee" of snow shovellers on the morning of May 24th, when those interested are invited to take their shovels along and join the party. With a good gang, it is estimated that there will be no difficulty in getting through to enjoy a good afternoon's fishing.

To all willing to help are asked to get in touch with J. B. Spurrier, W. R. Maxson or Bill Spear.

SIXTEEN TONS OF GOLD FROM FRANCE TO U.S.A.

PARIS, May 23.—France today shipped sixteen tons of gold to the United States.

VANCOUVER AT SHOWDOWN WITH RELIEF CAMP MEN

Stern Warning Given After Civic Proposal For Return Is Rejected

VANCOUVER, May 23.—The relief camp strikers were warned officially today that the City will tolerate no more demonstrations, parades or nuisance processions into stores. The warning came after the men at a mass meeting had flatly turned down the civic proposal that they return to the camps, leaving a committee here to negotiate. A delegation that waited upon Mayor McGeer later to ask him for four days relief for the men received an emphatic "No!" The Mayor asserted that the four days relief was asked so that the men might join in the threatened strike of shipping on Monday, when the waterfront workers plan to quit their jobs.

Realizing the crisis, the city police have been augmented by two hundred special constables, and the Provincial Police, R.C.M.P. and militia, if necessary, will co-operate.

LARGER ENTRY FOR MUSICAL FESTIVAL

Choir Classes And Larger Instrumental Groups Increase Over Former Years

Entries in the tenth annual Okanagan Valley Musical Festival, which will be held in Kelowna on May 30th, 31st and June 1st, are more numerous than has been the case for several years, especially in the choir classes and the larger instrumental groups. Vernon and Kelowna have both entered male voice and ladies' choirs, and these will be heard on Friday evening. The two mixed choirs, and the singing of the combined choirs under the direction of Prof. Arthur Collingwood, adjudicator, will be heard on Saturday evening.

On Friday evening, the Vernon Symphony Orchestra will defend the shield won last year, and on the same evening the juvenile orchestra competition will be held. There are three entries—Vernon, Kelowna and Kamloops, the latter competing here for the first time.

The Canadian Legion Band, of Trail, and the Penticton City Band will be heard in the band class on Saturday evening.

Kelowna schools are entering several large choirs, two of which will be included in the Thursday evening programme. The others will be heard on Saturday afternoon. Oyama has entered a school choir and a group in the sing-song class.

The Rutland Dramatic Society, Kelowna Young Players and the Summerland Singers and Players' Club are each presenting a short play in the open dramatic class on Thursday evening.

Interest is well maintained in the dancing classes. Competitors are coming from Vernon, Penticton and Kelowna, and over twenty different dances will be presented on Saturday afternoon.

The other morning and afternoon sessions will be taken up with individual entries in instrumental, vocal and elocution classes. In all, there will be nine sessions or programmes. The afternoon sessions will commence each day at 1.15 and the evening sessions at 7.15.

Prof. Collingwood this year will adjudicate the elocution and dramatic classes as well as the music. Both he and Mrs. E. T. B. Thomas, of Salmon Arm, who will adjudicate the dancing, will be kept very busy.

PREVENTORIUM COMMENCES SEASON

More Patients Will Be Admitted After Juvenile Epidemics Are Over

The Gordon Campbell Preventorium opened its doors to some three or four children on Friday and others will be admitted as soon as all danger of infection from the minor epidemics that have prevailed in the Kelowna district is obviated. In view of the fact that there is still danger of infection, friends are asked to delay their visits to the Preventorium for the time being.

Drive For Funds

A drive is under way for funds for operating expenses this year, and money is also needed to defray the cost involved in the alterations and improvements to the building recently carried out. Supporters are asked to leave their contributions with the Secretary, Miss Eve Moore, at the Royal Bank of Canada.

Articles Needed

In addition to a coat of stucco on the building, the following articles are needed at the Preventorium: linoleum for the dining room floor, chairs, a small desk, a bureau, a mirror and anything useful that friends of the institution might be able to supply. Fresh vegetables, fruit and eggs are a constant demand. Please telephone Mrs. Stiell, number 275-R2, in respect to contributions of this nature.

Donations may be left at the office of the Kelowna Steam Laundry or at the store of D. K. Gordon, Ltd.

YOUTH'S WEEK CELEBRATED BY ROTARY CLUB

Members Listen With Keen Interest To Addresses By Alison Easton And Jack Maddin

The Rotary Club of Kelowna recently celebrated the annual "Youth's Week" of Rotary, the plan for fitting observance being outlined by Rotarian Sid. Easton, chairman of the "Youth's Week" Committee, who pointed out that each Rotarian was expected to take his children to church on Sunday and to a show during the week and to bring some youth, either male or female, to the Rotary luncheon. In connection with the celebration, interesting addresses were given by two guests, Alison Easton and Jack Maddin.

Speaking on "The Hope of Present Day Youth," Miss Easton showed that she had given a considerable amount of thought to her subject, and her remarks embodied a number of points calculated to make her elders think also. Her address in full was as follows:

"I was very much interested in the address of the Prince of Wales a few days ago in which he spoke of the youth of the British Isles. A trust created by him will provide for gymnasiums and camps, especially for the unemployed. Here in Canada, we are exceedingly fortunate in having ample facilities for such recreation. We know little of the disadvantages of over-crowded cities. What youth in Canada wants is recreation rather than recreation."

"Youth must get a clearly defined vision of the functions performed in the society in which he lives. He must see a cross-section of the community, province or country in which he lives. He has been used to having services performed for him, hence, as a child he has not penetrated into the question, whence came the shoes on his feet or the food on the table? But as he grows older he wants to see how he gets the things he needs. They are no longer made at home as in feudal days and he is far removed from factories. Inasmuch as the ramifications of many of these commodities lead to a specialized study, he cannot delve too deeply for want of time and opportunity, and yet this knowledge is essential to him in order that he may wisely choose an occupation."

"With cloth, as an example, if he could visit a factory and see the process from the raw wool on, he would then be in a position to decide whether or not he might be interested in that field. If he were such a person as desired to develop his mental powers, he would wish to understand in some way electricity, architecture or engineering."

(Continued on Page 3)

PIN GAMES OUT AT PENTICTON

Provincial Police Put Gaming Devices Out Of Business

Pin games, marble tables and slot machines generally have come under the ban of the Penticton detachment of the Provincial Police. All such devices were stopped by order on Thursday night.

In the eyes of the police, these gaming devices are considered contrary to the statutes. Hence the roll of the ball and the click as the strikes the pins will be heard no more in Penticton, unless the order is later rescinded.

GOLF TITLES TO BE PLAYED FOR HERE

Play For Interior Honours On Friday, Saturday And Sunday

The Interior Golfing Association of British Columbia 1935 Championships will be played on the Kelowna course on Friday, Empire Day, and Saturday and Sunday, with the annual banquet of the Association taking place in the Royal Anne Hotel on Friday evening. The 18-hole qualifying round is scheduled for Friday morning, when the fifteen lowest medal scores, with the present title-holder, will constitute the championship flight, the remainder playing down in flights of eight.

Inter-club competition for possession of the Angus Cup will be played in conjunction with the qualifying round. All clubs represented will be entitled to nominate a team of two players. The team with the lowest total medal score will be declared the winner.

The first round of the championship and all flights will be played on Friday afternoon, the second round on Saturday morning, when the first round of the consolation flights (comprising all players eliminated from the first round of the championship flight) will also be staged. The second round of the championship and consolation flights are scheduled for Saturday afternoon. The finals of the championship (36-holes) and consolation (18-holes) flights will be played on Sunday morning and afternoon.

A long driving competition will be held on Sunday afternoon. Prizes will be awarded for the longest individual drive and for the best aggregate.

PROSPECTS FOR FRUIT CROP SEEM GOOD

If Abundant Showing Of Apple Blossom Sets, Yield Will Be Large—Stone Fruits Lighter

(From the fortnightly report of the Horticultural Branch, Provincial Department of Agriculture, Vernon, B.C. Fruit Crop Prospects, 1935)

As reported May 17th: During the past winter unusual climatic conditions were experienced in many sections of the Province. On the Coast low temperatures, followed by heavy snow and rain, resulted in considerable damage to trees and small fruits. In the Interior sections there was a satisfactory fall of snow which undoubtedly was of advantage in respect to many crops. There was, however, some winter injury experienced in certain sections due to the low temperatures which prevailed. Naturally, the question arises on the part of all those interested in British Columbia fruits: What are the crop prospects?

In the Coast sections tree fruits are not of major importance. It is in these sections, however, that the big percentage of raspberries, strawberries and loganberries, etc., produced in British Columbia are grown. At the present time indications are that the total crop of strawberries will perhaps be as heavy as in 1934. The fact of there being a larger acreage will to some extent offset the effect of a certain amount of winter injury. Climatic conditions at picking time, however, will have a lot to do with the final crop. Raspberries suffered from winter injury, but the possibility is that there may be as heavy a crop as last year. Loganberries show winter injury in certain sections, particularly in poorly drained areas, and present indications are that the crop will be lighter than last year.

Throughout the Okanagan Horticultural District, which extends from Kamloops along the mainline of the Canadian Pacific Railway to Salmon Arm, and south through the Okanagan Valley to the International Boundary, the prospects are varied. Stone fruits of different kinds, such as peaches, apricots, plums, etc., will undoubtedly be lighter than in 1934, although possibly not to the extent at present feared. Pears indicate from blossom showing a most satisfactory crop. Apples in the northern sections show some winter injury to the trees, but blossom indications in all areas are for an excellent crop, which may not, however, be as heavy as 1934, due to the fact that 1935 is a light crop year.

The Kootenay and Boundary sections are somewhat later than the Okanagan. Present indications point to as large an apple crop as that of 1934, with a possibility of even a larger crop than that of the past year. In the case of cherries, the crop should be on the whole as heavy as last year, although there has been some frost injury. Increased acreage coming into bearing may offset any damage which has occurred. Strawberries in the Wymndel and Slokan sections have come through the winter very satisfactorily, with the result that both strawberries and raspberries should be much heavier than for a number of years.

TURKEY JOINS GERMANY IN TREATY DEFIANCE

LONDON, May 23.—Turkey has joined Germany in defying the terms of the Versailles Treaty, it was learned here today, and has already fortified the Dardanelles.

BILL TO REMONETIZE SILVER IN CANADA

OTTAWA, May 23.—Thomas Reid, M.P. for New Westminster, today gave notice in the House of Commons of a bill to remonetize silver.

ITALY WANTS NO INTERVENTION

Proposals Of Powers For Italo-Ethiopian Settlement Rejected

GENEVA, May 23.—Italy today rejected the proposals of the powers to reach a settlement of the Italo-Ethiopian dispute.

OCCIDENTAL BUILDING NEW COLD STORAGE

Will Give Fruit Company Facilities To Store About 140,000 Boxes

A valuable addition to Kelowna's cold storage facilities is now under construction by the Occidental Fruit Co., Ltd., on the site between the packing houses of the Occidental and the B.C. Fruit Shippers' Ltd. Work on the foundation has been completed and the walls are now being erected.

The new building which will be completed late in the summer, measures 138 feet by 100 feet and will be of four-story construction. It will be equipped with the most modern machinery obtainable and will have a capacity of from 135,000 to 140,000 boxes.

The work is under the supervision of Mr. Harry Peel and about thirty men are employed.

TRANSPLANTING TREES

When trees die after transplanting the cause may often be ascribed to lack of sufficient care on the part of the transplant. Trees and shrubs should be dug out as carefully as possible so as to retain a large proportion of the roots. The more roots there are, the greater the chance the plant has of living. The roots should not be allowed to become dry from the time of digging until the trees are in the ground again. They may be protected from drying in transit by wet sacks. If the roots of evergreens, especially pines, become dry even for a short time, the trees are almost sure to die. When planting, a hole should be dug large enough so that the roots may be spread out and not crowded or doubled up. The hole should also be deep enough so that the tree will be 1 or 2 inches deeper than it was in the woods or nursery. If the soil is at all poor, it should be discarded if possible and the hole filled with good soil which should come in close contact with the roots and be trodden down. Manure should not be put in the hole with the soil as it may burn the roots or make the soil so loose that it will dry out easily. Several pamphlets dealing with tree plant-

MOSQUITOES LIKEWISE PLAGUED THE ANCIENTS

Specimen Preserved in Amber Estimated to Be 2,500 Years Old

In the year 600 B.C. mosquitoes apparently were just as annoying as the modern species, if size is any indication. A mosquito whose proportions are larger than those of its average present-day descendant is preserved in a piece of amber owned by H. C. Page, of Saint John.

Geologists estimate the insect was entombed more than 2,500 years ago. The neatly cut piece of amber, crystal-clear, preserved the mosquito perfectly, including even the fibrous hairs on its body and legs.

Amber, a solidified refinement of tree balsam, is found mostly in the Baltic and other parts of maritime Europe. The piece in Mr. Page's possession came from the northern coast of Russia, where vast areas were under water for centuries.

ing for ornamental and other purposes are issued by the Dominion Department of Agriculture. They are available on application to the Publicity and Extension Branch, Ottawa.

BOY SCOUT COLUMN

1st Kelowna Troop

Troop First! Self Last!

Orders for the week commencing Thursday, May 23rd, 1935:
Duties: Orderly patrol for the week, Wolves; next for duty, Eagles.
Rallies: The Troop will rally at the Scout Hall on Tuesday, May 28th, at 7:00 p.m.

We are pleased to announce that at time of writing P.L. Chapman was doing well and hopes to be home soon. Nice going, Dave!

The P.L.s and Seconds will be on duty for the 1st Parade in the City Park at 9:45 a.m., on Friday morning, with full uniform.

The Rutland Troop have extended an invitation to the Leaders, P.L.s and Seconds to attend their entertainment on Thursday night, May 23rd. We would like all those who can make it to see this concert.

Dave Cummings, of the Owls, has counted his Second Class and we are only waiting for his test papers from Rutland before presenting him with his badge. This boosts up his patrol 75 points. Now come on, Scouts, we want to see a big move in the badge work this year.

The Scouts, invested on Tuesday night were Whittman, of the Wolves, Atkinson and Maddin, of the Eagles, and Patterson, of the Owls.

Scout Notes Of Interest

Nova Scotia Boy Scouts totalling 850 lived the woodcraft life last summer in 41 camps.

Ontario Boy Scouts last year earned 2,196 badges qualifying for public service work. They were: Ambulance Man, 423; Fireman, 360; Handyman, 241; Friend to Animals, 108; Missioner (home nursing), 300; Pathfinder (knowledge of 25-mile area, for directing strangers), 234; Public Health Man, 113; Rescuer (from drowning), 148; Public Safety Man, 269.

An official invitation to Canadian Scouts to attend the twenty-fifth Birthday Anniversary Jamboree of the Boy Scouts of Poland has been received by His Excellency the Earl of Bessborough, Chief Scout for Canada. The invitation is signed by Dr. Michal Grazynski, President of the Polish Boy Scouts Association. The Jamboree will be held in the forests of Spala, on the estate of the President of the Republic, July 11 to 24, and an attendance of 20,000 is expected.

In 1934 Ontario Boy Scouts qualified in 1,461 Badge tests aimed to help them discover life work. The list included: Airman (mechanical), Basket Worker, Bee Keeper, Blacksmith, Boat Builder, Bookbinder, Camp Cook, Carpenter, Clerk, Dairyman, Electrician, Engineer, Entertainer, Farmer, Forester, Gardener, Handyman, Journalist, Leather Worker, Mason, Metal Worker, Miner, Musician, Photographer, Plumber, Printer, Prospector, Radio, Rigger, Stockman, Surveyor, Tailor.

INSPECTION OF SEA CADET CORPS

Local Boys Make Creditable Showing When Reviewed By Capt. Black

An inspection of the Kelowna Sea Cadets Corps was held on Thursday last by Capt. Lyman M. Black, of Military District No. 11, Victoria.

While the Corps has had difficult waters to navigate lately, having suffered several losses in the personnel of the staff and faced with the necessity of finding new quarters, a most creditable showing was made, and the inspector expressed himself in no uncertain terms as being well pleased with the boys.

The drill, carried out under the command of Warrant Officer Paul Gore, demonstrated that the boys had worked hard to attain the degree of smartness and proficiency shown, and Capt. Black promised to see if he could obtain a drum for the Corps to help in this part of the training.

The signalling was well done. The inspector explained that this knowledge was often useful in life—also a knowledge of first aid, especially in a town like Kelowna, where drowning accidents were likely to occur. Courses in first aid are conducted locally by Dr. M. P. Thorpe.

Rope work was performed under the guidance of the C.O., Capt. A. V. Surtees. Their proficiency at knots, splices and rope climbing showed that Kelowna has a keen bunch of boys.

Much of the credit is due Instructor Ray Stone, who was absent on holiday, for his untiring efforts and good work. Capt. Black won the hearts of the small boys by teaching them the real way to play leap-frog and several other games. They found him "a swell guy," and regretted that he could not stay in Kelowna permanently.

There is room in the Corps for other boys, and parents would be well advised to take advantage of the opportunity to have their sons get this valuable training now.

Hon. Grotte Stirling is the president of the organization.

WESTBANK

The W. A. of St. George's Church met at the home of the President, Mrs. Hoskins, on Thursday afternoon. The afternoon was spent in crocheting the squares for an afghan.

Mr. W. A. Leitch, of Glenora, had his home broken into on Tuesday and was robbed of \$80 and a gun.

A dance was held in the Community Hall on Friday night in aid of the Peachland Athletic Club building fund. Westbank donated the hall and supper and Peachland supplied the music. Owing to illness, there were not so

JUST CHATTER

(By ex-Kelownian)

When this appears in print, as I hope by the good nature of Mr. Editor, it will, there will be little else talked of in Kelowna but the 24th of May celebration. Therefore, it is advisable that some more information of an interesting sort should be given the readers regarding the Coast men who will appear in your lovely Orchard City. We have already outlined some of the achievements of Howie McPhee, who by the way will captain the team, and Marshall Limon, appearing in Kelowna for the first time there will be another coming star. His name is Martin Naylor, Martin won fame as a broad-jumper, and his record below will demonstrate why. While still a High School boy, he unofficially twice, we believe, equalled the senior Canadian broad jump record.

MARTIN NAYLOR
Sprinter

Curiously enough it is not as a broad jumper but as a sprinter that Martin will come. It happens thiswise. Some years ago Martin received three serious injuries which promised to put him out of athletics permanently. However, he recovered, but his doctor told him that, if there was a repetition of the injuries, he would in all probability be permanently upon his back. Well, in the course of time his leg went again, then his knee, which left only his back to put him completely out. Nevertheless, he went east as a prospective Canadian school boy broad jumper, but trouble set in and he was advised to step aside. However, he had been fooling around in the sprints, so he thought he would give serious thought to this branch of track. Eastern coaches watched him and then he came wildly enthusiastic. He had the style, the drive and the ear marks of a real champ. At Hamilton, unfortunately at an unofficial meet, he was clocked at 9.9, which is going places. Eastern coaches wrote to B.C. and John Muter, President of the B.C. Amateur Track & Field, is never finished talking to young Martin, who, he considers will be a second Percy Williams and Howie McPhee. He is officially been clocked at 10 secs. flat, which means that the 100 yards dash will be "some race," with so many 10 flat men. Ten seconds is the "Holy of Holies" of trackdom. Just try secretly sometime to run 100 yards in 10 seconds and see where you land. Ten seconds flat, we may say, ties the Interior record, and Martin Naylor won the 100 yards in 10 flat at the B.C. Championship at Penticton on July 2nd of last year. Therefore he is officially the B.C. champion runner. Well, boys, we would hate to be sitting at that finish tape to pick first, second and third in that 100 yard dash. It would be well to have an official photographer there, for it will be fractions of seconds that will separate the boys.

Howie McPhee and Naylor, if they all get off their marks properly. Naylor is a little dark fellow, who grips his lips, and his shyness makes him frown somewhat. Girls, he is very, very shy, but he is well worth knowing.

Hal Odium

Kelowna will be delighted to know that, by a good stroke of fortune, another old favourite will appear this year in the person of that prince of fellows, Hal Odium. Hal has found it impossible in recent years to make the trip but this year he is able. He is still running the half mile and mile in great style, and will give those Interior boys all they can handle. At New Westminster Indoor Track Meet, in the 100 yards, he gave Cunningham, reputed to be the best in B.C. in long distances, more than he could handle, but Hal by great strategy and beautiful timing took the lead, held it and, in spite of the tremendous effort by Cunningham, beat him to the tape, to the unbounded enthusiasm of some hundreds of school kids, with whom Hal is a prime favourite. He is a perfect gentleman.

Jack Harrison

Last year Jack Harrison, the flying cop, and since then champion all-round athlete of the Vancouver and district police force, made a most happy impression. Jack is a tireless athlete who just loves to enter events for the love of entering. He is liable to enter the 100 or the mile or anything between. It matters not if there are hurdles, or if it is discus throwing; Jack is liable to enter them all. Everybody likes Jack. He will again be on hand.

many present as at the annual dance, but it was a very nice affair and an excellent supper was served by the Entertainment Committee.

GLENMORE

The blossoms, which have been regrettably patchy in some orchards, are dropping, and the spraying machines are in evidence again, as is also the seemingly endless argument as to whether the present calyx spray is really necessary for clean fruit.

Mr. and Mrs. Short motored to Armstrong last week-end.

The softball team is in action again. The boys won from East Kelowna on Tuesday, and lost to the Ford Garage on Thursday.

Municipal Council

The Council met May 14th in the Board Room.

Following a discussion on Codling Moth, Coun. Ritchie moved and Coun. Monbray seconded, that the following be adopted as Codling Moth Regulation No. 4.

"For preventing the spreading of Codling Moth, no used apple boxes or orchard boxes shall be brought into the Municipality of Glenmore, until after the first day of August in any year, unless the said boxes have been fumigated."

The Clerk was instructed to notify the packing houses of the above regulation.

Two letters were received from the Gordon Campbell Preventorium asking respectively for a rebate of taxes for 1935, and free water for 1935. Coun. Monbray moved and Coun. Hicks seconded, that a grant of \$10, plus the amount of the 1935 assessed taxes, be made to the Preventorium, and that a letter be sent explaining that it was not possible to give free water.

Correspondence with the Municipality of Goldstream, Summerland and Penticton showed that all three made a practice of giving unemployment relief only in exchange for the equivalent in work. The Clerk reported that the City Engineer of Kelowna had said the same course was followed in Kelowna.

Advice was received from the Union of B.C. Municipalities that the next convention would be held at Harrison Hot Springs, on Sept. 17th.

The 1935 tax-rate By-Law was reconsidered and finally passed, setting the following rates on all land and 50 per cent of all improvements: Debits, 2.8 mills; school, 12.2 mills; general, 3.9 mills; total 18.9. The same clause as last year appears in the By-Law again, offering rebate of half the penalties on arrears and delinquent taxes, if paid before Sept. 30th, 1935.

Correspondence with the Deputy Inspector of Municipalities, in the matter of hydrants on the water main, was read, and the cost and locations of hydrants were discussed. A circular, approved for mailing to all water users asking for their opinions.

After discussions on road work and noxious weeds, the meeting adjourned.

Ken Brown

Then last, but not least, will be young Ken Brown. Ken is a "comer." He is entering the broad jump events and sprints. In broad jump he holds an endless array of school ribbons, including many firsts. Ken is just breaking into senior company. He is a most likeable lad, and in addition to his ability as a jumper and sprinter, although only eighteen, he is a pianist of extreme ability. Doubtless he will be booked up by your genial Jim Browne to play over the radio.

Two Outstanding Visitors

Two outstanding visitors will appear at the Meet in the persons of Stan Smith and Mrs. Smith. Stan is known everywhere, being the very soul of senior baseball in Vancouver and for many years the Secretary of the Amateur Athletic Association.

Famous Girl Flashes

Mr. Smith is bringing up from Vancouver two of Canada's most notable girl sprinters, Mary Frizzell and Helen Reeves. Just watch these girls travel! We would like to see some of the Gyal, as such as Dave Chapman, T. R. Hall and L. R. Stephens, matching them. It would be fun! Mary Frizzell, of course, went to the Empire Games, representing Canada.

Martin Naylor's Record

Below is an outline of the record of Martin Naylor. Note his broad jump Canadian junior record of 22 ft. 9 ins. and his Technical School record of 22 ft. 10 ins.

1931.—Technical School Track Meet: Junior 100 yards, 1st, time 10.4/5 secs. (new Meet record); Junior 220 yards, 1st (Meet record). Indoor Meet, October: Inter-High School 40 yards, 1st, 4.4/5 secs.

1932.—Technical School Track Meet: Intermediate 100 yards, 1st (new Meet record); Intermediate 220 yards, 1st (new Meet record); Intermediate 440 yards, 1st (new Meet record). Inter-High School Track Meet: Intermediate broad jump, 1st, 20 ft., 4/5 ins. (Meet record). Caledonian Games: Junior broad jump, 1st, 20 ft., 1/2 ins. (Meet record); open broad jump, 2nd, Junior Olympics: broad jump, 1st, 21 ft., 4/5 ins. (Meet record).

1933.—Technical School Track Meet: Senior 100 yards, 1st; Senior broad jump, 1st, 21 ft., 1/2 ins. (Meet record). Inter-High School Sports, May 23rd: Senior 100 yards, 1st, 10.2/5 secs.; Senior broad jump, 1st, 21 ft., 3 ins. New Westminster, May 24th: Junior broad jump, 1st, 20 ft., 10 ins. (Meet record); open broad jump, 1st, 21 ft., 3/4 ins. (Meet record). Caledonian Games: Junior broad jump, 1st, 20 ft., 9 ins. (Meet record); open broad jump, 1st, 20 ft., 9/10 ins. (Meet record); open 220 yards, 2nd; hop, step and jump, 2nd. Revelstoke Labour Day Sports: open 100 yards, 2nd; open broad jump, 1st, 22 ft., 5 ins. (Meet record). New Westminster Indoor Track Meet: Inter-High School 40 yards, 1st, 4.4/5 secs.

1934.—Technical School Track Meet: Senior 100 yards, 1st; Senior broad jump, 1st, 22 ft., 10 ins. (Meet record); B.C. Championships, July 2nd; open 100 yards, 1st, 10 secs. flat (ties Interior records); Junior Olympics, July 5th: broad jump, 1st, 22 ft. 9 ins. (This mark has since been passed by A.A.U. of Canada as a Canadian Junior record). Canadian Championships, Hamilton, Ont.: open broad jump, 4th.

POUND DISTRICT ACT

WHEREAS under the provisions of the "Pound District Act," application has been made to constitute as a Pound District all that certain portion or tract of land in the Benvenuto and Mission Creek School Districts which may be more particularly described as follows:—

Commencing at the most southerly corner of Lot 132, Osoyoos Division of Yale Land District; thence southerly, following the easterly boundary of Lot 3036 of said Osoyoos District to the northerly boundary of Section 5, Township 26, of said Osoyoos District; thence easterly, following said northerly boundary and that of Section 4 of said township to the south-east corner of the east half of Section 9 of said township; thence northerly, following the easterly boundary of said half-section and those of Sections 16 and 21 of said township to high-water-mark of the southerly bank of Dilworth (Dry) Creek; thence in a westerly direction along said high-water-mark and that of the southerly bank of Kelowna (Mill) Creek to the easterly boundary of the Municipality of Glenmore, as defined by Notice in the British Columbia Gazette under date of October 5th, 1922; thence southerly, following said easterly boundary of said municipality to the most southerly south-east corner thereof; thence westerly, following the southerly boundary of said municipality to the easterly boundary of the Municipality of Kelowna, as defined by Notice in the aforesaid Gazette under date of June 14th, 1934; thence southerly, following said easterly boundary to the south-east corner of Lot 138 of said Osoyoos District, being a point on the southerly boundary of said Municipality of Kelowna; thence westerly, following said southerly boundary of said municipality to the easterly boundary thereof; thence southerly, following said easterly boundary to the north-east corner of Block 24, as shown on plan deposited in the Land Registry Office at Kamloops, B. C., and numbered 186, and continuing southerly along the easterly boundary of said Block 24 to and along the easterly boundary of Block A, as shown on registered plan No. 2086, to the south-east corner of said Block A; thence easterly in a right line across Richter Street to the south-westerly corner of Block B, as shown on said plan No. 2086; thence south-easterly, following the south-westerly boundary of said Block B and the westerly portion of the southerly boundary of Block 35, as shown on registered plan No. 1848, to the point of deflection of said southerly boundary of Block 35; thence easterly, following the easterly portion of said southerly boundary of Block 35 and the southerly boundaries of Blocks 38, 39 and of Lot A, as shown on said plan No. 1848, to the westerly boundary of Lot 131 of said Osoyoos District; thence southerly, following said westerly boundary of said lot to the south-westerly corner thereof; thence south-easterly, following the south-westerly boundary of said Lot 131 and that of Lot 132 aforesaid, to the point of commencement.

NOTICE IS HEREBY GIVEN

that, thirty days after publication of this notice, the Lieutenant-Governor in Council will proceed to comply with the application unless within the said time objection is made to the undersigned by eight proprietors within such proposed Pound District, in form "A" of the Schedule of this Act.

K. C. MACDONALD,
Minister of Agriculture,
Department of Agriculture,
Victoria, B. C.,

Have you found the SUNNY PACKAGE

on your grocer's shelf?

It's a delicious ready-to-eat cereal. Millions of Canadians have found Kellogg's ALL-BRAN a safe, effective means of correcting common constipation—the kind caused by lack of "bulk" in the menu.

Laboratory measurements show that ALL-BRAN provides "bulk" to aid elimination. ALL-BRAN also supplies vitamin B and iron.

The "bulk" in this tempting cereal is more effective than that found in fruits and vegetables because it resists digestion better. Within the body, it absorbs moisture, and forms a soft mass. Gently, this cleans out the intestinal waste.

Isn't this natural food better than taking patent medicines? Two table-spoonfuls of ALL-BRAN daily are usually sufficient. Chronic cases with each meal. If this fails to give relief, see your doctor.

Enjoy ALL-BRAN as a cereal, or cook into appetizing recipes. Kellogg

One must look ahead a good many
years in trimming hedges. If too much
growth is left on each year, the hedge
will take up far too much space. If, for
instance, one inch of growth is left all
over the hedge each year, that means
an increase of two inches in width each
year, and in twenty-five the hedge
would be over four feet wide at the
base. With two inches a year left of
growth, the base of the hedge would
be over eight feet in width in twenty-
five years.

PROSPECTS FOR FRUIT CROP SEEM GOOD

(Continued from Page 1)

Salmon Arm, Sorrento and Main Line
Points

As reported May 15th: The winter
has been long and severe, with some
temperatures that probably constitute
the low records for several decades at
least. Snowfall was fairly heavy and
there was no frost in the ground during
the winter, consequently there was
little run-off this spring. Soil mois-
ture conditions are in present satis-
factory for deep rooted crops, but rain
is needed for seedlings and seedling
plants of all sorts. In some of the
river and creek bottoms flooding has
already occurred, and, should hot weather
prevail for any long period, this
condition will probably become aggra-
vated. The spring has been very back-
ward and marked by cold, high winds.
The season is a full two weeks later
than average. In the irrigated districts
there is every prospect of a satisfactory
water supply.

Fruit trees appear to have come
through the winter fairly well and little
injury is in evidence so far. It is,
however, somewhat early to make any
definite statement on this point. Cher-
ries, pears and plums are showing full
bloom and, while not heavy, a fair
crop is indicated. Weather conditions
have been favourable to pollination the
last few days. Apples are coming into
the "pink" stage at Salmon Arm, Gen-
eral, Sorrento, and spraying is general.
There appears to be prospect of a fair
crop, but it will be easier to form an
opinion when the full bloom appears.

Apples are in full bloom in the
Kamloops and western sections, with a
good crop in prospect.
Cane fruits are showing injury in
some locations but it is too early to
yet say to what extent the crop will
be affected. Cane growth, however,
was rather light last year, so it is not
likely that the crop will be heavy in
any case. Strawberries had a good
snow covering during the winter and
have come through well.

Tomato planting has been very much
delayed in the Ashcroft and Kamloops
districts owing to unfavourable weath-
er conditions. In the Kamloops dis-
trict heavy frost damage was sustained
by growers who took the risk of
early planting, but in most cases the
damaged acreage has been replanted.
Onions have been planted fairly heav-
ily in the Kamloops district. Aspara-
gus is moving from Kamloops but the
season is very late.

Armstrong, Vernon, Oya, Okanagan
Centre and Winfield

As reported May 17th: The winter
of 1934-35 was fairly consistent with
an average snowfall, and one very low
drop during the month of January car-
ried the temperature well below the
zero mark. As a consequence of this
severe spell, there has been injury suf-
fered by trees in the northern end by
bark splitting of the trunk, which in
some cases is rather severe. These
low temperatures also caused a total
loss of the peach and apricot crop, and
considerable killing in young trees of
these fruits, and also young pears.
Our spring is later by three weeks in
comparison to 1934, and about one
week later than normal. Owing to the
continued cold, dry weather, growth
has been very backward. Up until
the last week of March, frost has been
frequent. The run-off of water from
the hills is very slow, but there is
every indication of ample irrigation
supplies for the coming season. With
the backward movement of the water
up to date, the run-off may possibly
be sudden and heavy when it starts,
which will tend to fill reservoirs rapidly.

With the showery and warmer weath-
er of the past week, growth in or-
chards has become more rapid, and
the full blossom will be on in the next
two or three days. Although there
are odd varieties which show spotty in-
jury, there is a promise over the
whole district of an average to
above average crop of apples. Pears
appear lighter than last year, and
prunes will also be a little short from
blossom indications. Plums are show-
ing heavy blossom. The sweet cherry
blossom was very full, and, although
it is too early to state anything defi-
nite regarding yield, the set appears to
be fairly good. A certain amount of
bud injury is evident in some varieties
of apples, but this does not appear to
be general.

Although soil moisture throughout
orchards was excellent in the spring,
our steady, dry, windy conditions have
taken away considerable of the surface
moisture. The soil, however, is in
good condition in the lower levels.

The seeding and planting of truck
crops has been considerably delayed
this season through cold, dry weather,
and growth has been slow, and those
who took a chance on early seeding of
cucumbers and planting of early pota-
toes have had injury from frosts over
the past two weeks. There has also
been a certain amount of damage to
the tomato plants in the frames. The
field planting of this crop is now in
full swing and over two weeks later
than 1934. Frequent showers over the
last two or three days will be of con-
siderable benefit to these crops, and
with warmer weather growth should
be rapid. With the lettuce and celery
crop in the Armstrong district, growth
has been very much retarded owing to
backward conditions and frosty nights,
and a certain amount of injury has also
occurred to these crops. Flooding of
some of the lower levels by the spring
run-off has caused almost total loss to a
few acres of lettuce. Cutting of the
asparagus crop is now in full swing,
and "grass" of very excellent quality is
available. The onion seed crops of the
district are making good growth, and
acreage is increased.

Growth of all field crops and pastures
has been very slow, and warmer
weather and good rains are very much
needed to develop growth on all farm
crops. Owing to slow growth on the
ranges this spring, the sheep produc-
ers of the district have suffered con-
siderable loss in lambs, through the
inability of the ewes to produce suffi-
cient milk for their offspring.

A splendid picture snapped during manoeuvres of the fleet in Med-
iterranean waters. The scene shows an aeroplane returning to H.M.S. Eagle.

Kelowna

As reported May 16th: Low tem-
peratures for a few days last winter
were responsible for considerable dam-
age to trees. Present indications are
that this will not be generally serious.
Peaches and apricots were injured
and there is practically no crop of these
fruits in this district. Cherries, pears,
apples, plums and prunes indicate a
fair crop. The spring has been very
dry and is three to four weeks later
than in 1934. Apples are in full bloom
now.

Tomatoes are being planted in the
fields. Onions are being weeded and
asparagus of excellent quality is being
harvested for the cannery and fresh
shipment. The acreage of early lettuce
is not as heavy as last year.

Westbank, Peachland, Summerland,
Naramata

As reported May 15th: Weather
conditions have been extremely back-
ward. Orchard, field crops and range
pasture are making very slow growth.
The season is at least ten days behind
normal and over three weeks later
than last year. This district had a
good rain this morning, the first in
two months. Soil moisture has been
well maintained owing to the cool weath-
er prevailing, and growers are going
slow in using irrigation water. The
water situation at present promises an
assured supply for the full season.

Fruit trees have come through the
severe winter fairly satisfactorily, not
much winter injury being observed
thus far. Peach and apricot fruit buds
suffered in certain areas and a red-
dew crop will result this year. Late frosts
last month caused some injury to the
cherry buds. Plums and pears show
profuse blossom at present, and pros-
pects for a normal apple crop seem
assured. Peak of apple bloom period
will be about the 22nd.

Cantaloupe growers have most of
their plants in the field now under
caps. Tomatoes will be set out next
week, as it is expected that the frost
danger period will then be over.
Fruit Worm and Bud Moths are
more prevalent this spring and are
causing some damage. Many growers
applied an arsenate of lead spray
for control to good advantage.

The first picking of hot house toma-
atoes will be shipped next week.

Penticton, Kaleden, Keremeos,
Oliver, Osoyoos

As reported May 15th: During the
past winter there have been experi-
enced the lowest temperatures on record
in this district. Some bud injury oc-
curred on peaches and apricots, and
the crop of these fruits will be consid-
erably less than last year. Some injury
to the wood has occurred on young
trees but the damage is not exten-
sive.

Late spring frosts have caused fur-
ther damage in part of the district to
cherries, apples and pears.
The frost warning service, as provid-
ed by the Department of Marine, has
proved of very great benefit to these
growers who have orchards. Several growers
have made good use of this service, and
have saved their crops from serious
loss.

The weather continues backward and
cold, and today the first rain for some
time fell. In the Oliver-Osoyoos
areas ground crops such as tomatoes,
cantaloupes and cucumbers are pretty
well all planted, and, considering weath-
er conditions, are doing very well.
Early potatoes are nicely through the
ground, and head lettuce and early
cabbage are looking well. From bloss-
om indications the pear and apple
crop will be about the same as last
year.

Kootenay And Arrow Lakes

As reported May 14th: The past
winter other than one very cold spell
which lasted for about two days, was
about a normal winter for the Koot-
enays. A very heavy snowfall that
came early remained on the ground
until late March and the first week in
April in some sections. There was lit-
tle or no frost in the ground at any
time throughout the winter and all
moisture from the snow was readily
taken up by the soil, so that moisture
conditions throughout the district are
very good at the present time. The
season is very late, being two to three
weeks later than last year, and all
growth was slow in starting.

Small fruits on the whole have
wintered well in all sections of the dis-
trict. Strawberries are now making
good growth, but the crop will be much
less than last year, little if any bloom
showing on the plants yet. Raspberry
cane appear to have wintered well,
and very little bud injury is to be
expected.

(Continued on page 2)

HORTICULTURAL SOCIETY

First Garden Drive Proves Very
Successful

The garden drive held last Sunday
afternoon was very successful. The
weather was perfect, the country-side
was fresh and green and the gardens
were beautiful. About sixty people in
fifteen cars enjoyed the round, starting
with the Misses Malleson's garden,
then on to Mr. Haverfield's and Mr.
Painter's then to the K.L.O. to Mr.
Bewlay's and Mr. Thorne's, finish-
ing with tea at Mr. Claude Taylor's.

It is not feasible within the scope of
a brief report to give a detailed account
of the lovely gardens visited. That of
the Misses Malleson was very pretty
and showed what could be done with
nothing but a field to start with. The
Haverfield lawns and grounds provid-
ed a perfect place from which to ad-
mire the fine view up the lake, but here
most of the garden enthusiasts rushed
to Mr. Painter's perfect little gem of
a garden, with its neat little lawn, pool
and rock work. Mr. Bewlay's garden
combines a fine view from a weedless
lawn with a very pretty rock garden
made in a gully on the edge of the
bench. Mr. Thorne's garden has a
very fine setting, with well grouped
trees, beds and lawn, also a rock gar-
den with dozens of uncommon plants.
Mr. Taylor's was an ideal place for
tea, a shady lawn with an exten-
sive, apple blossom all around and
probably the finest and most natural
rockery that can be found in the dis-
trict, simply full of flowers.

The ladies committee who arranged
the supply of food for the tea, those
who donated cakes, etc., and those who
brought their cars, must all be thanked
for their co-operation.

Next Drive, Sunday, June 23rd

The next drive has been set for Sun-
day, June 23rd, when Mrs. Haverfield
has generously offered to provide
strawberries for a tea in her garden.

Novice Classes At Spring Show

The Spring Show will be held on
Saturday, June 15th. After careful con-
sideration of the prize list by the Ex-
ecutive, it has been decided to make
only a few changes in last year's list,
the chief one being the introduction of
novice classes in peonies and roses.
For the purposes of the Show, a novice
is defined as one who has not won a
prize in that particular class before.

Keenly Gardening At Week-End
Mr. J. Keenly, of Marshall Street,
has kindly offered to open his garden
to members next Saturday and Sun-
day afternoons. Much of beauty and in-
terest can be seen in the gardens near
Marshall St., especially in those near
the foot-bridge over Mill Creek.

JOAN CRAWFORD
IN COMEDY ROLE

"Forsaking All Others" Affords Film
Star Ample Scope

Joan Crawford, glamorous film star,
plays pure comedy for the first time
in the new all-star production, "For-
saking All Others," which comes to
the Empress Theatre on Friday and
Saturday.

Although there are plenty of dram-
atic scenes, the star is given a greater
opportunity for sparkling comedy lines
and situations than ever before in the
new picture, adapted from the stage hit
of the same name. The cast includes
Clark Gable, Robert Montgomery, Bil-
lie Burke, Charles Butterworth, Fran-
ces Drake and Rosalind Russell.

"Society Doctor"

"Society Doctor," the showing for
Monday and Tuesday, has as its setting
the various departments of a great
metropolitan hospital. It is a faithful
chronicle of human emotions, a com-
posite life-time crowded into the brief
span of eight hours.

Chester Morris and Virginia Bruce
are teamed as the featured players.
Morris plays the part of a rebellious
young surgeon who does not believe
that love and marriage can mix with a
professional career. Miss Bruce ap-
pears in the role of a nurse. Robert
Taylor, a newcomer to the screen,
forms the third angle of the love tri-
angle as another intern.

"Six-Day Bike Rider" And
"Kansas City Princess"

The double bill for Wednesday and
Thursday includes the comic Joe E.
Brown in "Six-Day Bike Rider," said
to be an hilarious picture, and "Kansas
City Princess," another entertaining
film.

ALL MUST CO-OPERATE

*Gainful Occupation Instead of Relief is the
Aim of Your Government*

It is the policy of your government that relief recipients shall give services
in return wherever possible. Recent refusal of a certain number to do
the small amount of work required has jeopardized this policy and em-
barrassed those who are willing to do their share.

As a result of the actions of these disturbing groups your government has
laid down a policy that all relief recipients, physically able to perform work,
but who refuse to do so or to give a reasonable day's service, will be con-
sidered ineligible for further relief. Where it is necessary, dependents of
these men will be allowed relief and the disqualified relief applicant will
be removed from the position of head of the family so far as unemploy-
ment administration is concerned. He will only be reinstated when he
is prepared to give a reasonable amount of labor in return for his and his
dependents' relief.

The policy of your government has been
to distribute relief upon a basis of com-
parative need, having regard for the
number of dependents in a family without
regard for the physical fitness of the
recipient. Only those physically able are
required to undertake labour on public
works and then on a basis of one day's
work for each \$3.20 received.

Work, wherever possible, will be provided
within walking distance of workers'
homes; where this is not possible, trans-
portation will be provided. Relief workers
will not go out in bad weather. As addi-
tional public works funds become avail-
able, plans will be made to supplement
amounts of relief by extra work.

Your government fully realizes that the
amount of relief given is only upon a
subsistence basis, but is doing its best to
improve conditions and bring about a
change in policy. At present the problem
is to give the greatest possible distribution
to the monies available. The money
borrowed for unemployment relief and
for public works, plus the annual vote
from current revenue for bridge and road
maintenance, has been pooled for the
purpose of assisting those who find it
impossible to obtain employment. It is
obvious, therefore, that relief recipients
must do their share in the upkeep of roads
to return for the allowances made.

Having dealt fairly with relief recipients,
your government feels that it should have
the reasonable co-operation of the un-
employed. Such co-operation will assist
in bringing about the improvements
which your government desires, namely,
that gainful occupations shall be substi-
tuted for relief.

Believing that relief scales, in existence
when your government took office, were
insufficient to prevent suffering where

recipients were without other income, the
following changes were made:

Scale of food allowance increased by
ten per cent.

Dependents' allowance increased by
one dollar each a month.

Allowance to expectant mothers of five
dollars a month for a period of four
months.

Special grants to organizations assist-
ing needy cases in the provision of
clothing and shoes.

Increased medical aid for treatment of
the unemployed.

System changed from scrip to cash.

Distribution of \$500,000 in wages in the
autumn and winter 1934-35 out of
public works funds to relief workers
who gave services in return, in addition
to regular relief scales.

Granting permission to relief recipi-
ents to do casual labor to an amount
equal to their food allowance without
affecting the relief granted.

The result of this policy has been that,
although the number of relief recipients
has been reduced by approximately 15,000,
the costs of relief has increased by \$750,000
a year.

Contrary to allegations frequently made,
your government does not require unem-
ployed single men, domiciled in British
Columbia, to go to National Defence
camps for relief. All such men without
dependents, who can prove they lived in
the province prior to May 1, 1931, when
relief assistance was instituted, are el-
igible to receive relief at their established
domicile.

Orders have been issued to all provincial
relief officers to enforce the regulations
respecting the condition that all relief
recipients, physically able to do so, shall
give work in return for relief.

W. A. R. Miller

PRIME MINISTER
OF BRITISH COLUMBIA

THE GOVERNMENT OF THE PROVINCE OF BRITISH COLUMBIA

MC-3A

True to the
GRAHAM
tradition

Graham leads again!
For years there has
been an insistent
demand for true
Graham quality in
the lowest price
range. Here it is.
The car is ultra-
smart. It is literally

YET THE WINDSOR RETAIL PRICE OF THE NEW
SIX TOURING SEDAN IS ONLY

\$ 895

INCLUDING FULL EQUIPMENT

SALES TAX, FREIGHT AND
LICENSE ONLY TO BE ADDED

There's something about a
GRAHAM that
gives it the feel of a far more costly car

packed with plus-
values. Its speed and
responsiveness are
as outstanding as its
appearance. Come
in today. Drive a
Graham yourself.
That's the way to dis-
cover the difference.

THE KELOWNA COURIER

Okanagan Orchardist.
Owned and Edited by
G. C. ROSE

SUBSCRIPTION RATES
(Strictly in Advance)
To all points in Canada, outside the Okan-
agan Valley, and to Great Britain, \$2.50 per
year. To the United States and other coun-
tries, \$3.00 per year.
Local rate for Okanagan Valley only:
(One year, \$2.00; six months, \$1.25.)

The COURIER does not necessarily endorse
the sentiments of any contributed article.
To ensure acceptance, all manuscripts should be
legibly written on one side of the paper only.
Typewritten copy is preferred.
Amateur poetry is not published.
Letters to the editor will not be accepted for
publication over a "nom de plume"; the
writer's correct name must be appended.

Contributed matter received after Tuesday
night may not be published until the fol-
lowing week.
As the staff works on Thursday afternoon, the
Courier Office is closed on Saturday after-
noon for the weekly half-holiday.

ADVERTISING RATES
Contract advertisers will please note that their
contract calls for delivery of all changes of
advertisements to The Courier Office by Mon-
day night. This rule is in the mutual inter-
ests of patrons and publisher, to avoid con-
gestion on Wednesday and Thursday and
consequent night work, and to facilitate pub-
lication of The Courier on time. Changes of
contract advertisements will be accepted on
Tuesday as an accommodation to an adver-
tiser confronted with an emergency, but on
no account on Wednesday for the following
day's issue.

Transient and Contract Advertisements—Rates
quoted on application.
Legal and Municipal Advertising—First inser-
tion, 15 cents per line, each subsequent inser-
tion, 10 cents per line.
Classified Advertisements—Such as For Sale,
Lost and Found, Wanted, etc. Cash with order;
ten cents per line or five words or less, each
insertion. Minimum charge, twenty cents.
Placed or charged: fifteen cents per line
of five words or less. Minimum charge,
thirty cents.
Each initial and group or not more than
five figures count as a word.
If so desired, advertisers may have replies
addressed to a box number, care of The
Courier, and forwarded to their private ad-
dress, or delivered on call at office. For this
service, add 10 cents to cover postage or
filing.

THURSDAY, MAY 23rd, 1935

GOVERNMENT ADVERTISING

In pre-war days the bulk of the
weekly newspapers of Canada profess-
ed some kind of political faith and con-
sidered it their duty to fight in and out
of season for the party whose cause
they had espoused. The result was that
in many localities the district news-
paper represented only a minority of
community opinion and was hampered
by political antagonism in its efforts
to promote progress. Whether it was
the times, to form a Union govern-
ment during the Great War, or whether
newspaper publishers began to realize
that political partisanship prevented their
journals from presenting a real cross-
section of their respective com-
munities, at any rate the weeklies ul-
timately came to their senses and, with
a few exceptions, dropped their party
affiliations and became entirely inde-
pendent. Out of some seventy-three
weekly and semi-weekly newspapers
published in British Columbia, exclu-
sive of financial, religious and other
journals not dealing with general news,
McKim's Press Directory for 1935 lists
six as Conservative; four, Independent
Conservative; three, Liberal; one, In-
dependent Liberal; two, C.C.F., and
fifty-seven as Independent.

For a time, the political parties were
angered when the weeklies burst the
bonds of partisanship, and they vented
their wrath, when in power, by curtailing
as far as possible the scanty dole of
advertising issues to the papers.
They soon came to realize, however,
that they were simply cutting off their
nose to spite their face and were los-
ing a valuable medium of keeping in
touch with the public, so for a number
of years past the government patronage
idea in the dispensation of advertis-
ing has given place to a gradual in-
crease in the use of the press for
essential publicity.

The British Columbia & Yukon
Press Association, comprising practi-
cally one hundred per cent of the
weekly newspapers of the province, has
been urging for a number of years past
upon successive administrations the ad-
visability and wisdom of keeping the
people in closer touch and better in-
formed as to the average citizen to be
concerned with the large volume
of amendments to the statutes ground
out by the legislative mill each winter,
or with the Orders-in-Council that
appear only in the official British Col-
umbia Gazette, a publication that is
scarcely seen by a limited number of
officials and lawyers and is rarely seen by
the general public.

While its two immediate predeces-
sors have used advertising space in the
weekly newspapers, in slowly increas-
ing measure, the Pattullo administra-
tion has taken a decided step forward
in using a generous amount of display
in order to lay before the people some
of the problems with which it has to
deal and the policies with which it
proposes to meet them. This enables it
to reach all the people, irrespective of
the political affiliations, if any, of the
medium it employs. The first of this
series appeared in The Courier of May
9th, with the heading, "Your Govern-
ment and the Problem of Relief." The
second, headed "All Must Co-operate,"
is published in the current issue. These
advertisements deserve careful reading
and study, as they present facts and
destroy baseless rumours while they are
in no sense partisan.

Nothing is achieved by sitting still,
we are told. What about hatching
eggs?
The modern girl adores spinning
wheels, but she wants four of them
and a spare.

Given good care, it is surprising how
much fruit can be produced on a hun-
dred foot row of raspberries, half a
dozen currant bushes, and a small bed
of strawberries. When grown in the
home garden, these fruits provide
healthful variety in the diet at very
low cost.

THEIR MAJESTIES INSPECT SITE OF NEW PARK

The King and Queen recently visited the site of the old Windsor brewery, which has just been demolished in order that it may become a garden of recreation. The grand and Queen Mary had to enter through the hole in the wall, seen in the picture. His Majesty is in conversation with Canon Anthony Dean, while Sir Clive Wigram is explaining matters to the Queen.

* MERRY-GO-ROUND *

With R. M. R.

VILLAGE OF KELOWNA

The following interesting and in-
formative item appears in a widely
distributed tourist pamphlet printed in
the United States:

"KELOWNA, B. C. Population 597.
Known as the 'Orchard City' of British
Columbia.

Enclosing the Orchard City in quo-
tation marks would seem to rub it in.

CASES OF SCOTCH

An Aberdonian is endeavouring to
make flexible glass so that he can turn
a bottle inside out and get the last
drop.

In Scotland there is a quaint old
superstition to the effect that it is un-
lucky to be the thirteenth to use a
match.

Mrs. Mac: "What'll we gie Tammy
for a birthday present? Last year he
got a penny balloon." Mac: "So he did. Weel, he's
been a guid laddie a' year so we'll let him
blow it up now."

VENTURESOME CHILD

The Enderby Commoner tells this
one:
"Mama, did baby really come from
heaven?" asked an Enderby lad.
"Yes, dear. Now you run out and
play."

"Aw, gee! Leaving heaven for a
town like this."

Some growers admit that they made
money on the 1934 crop.
Most of them wouldn't admit it if
they did.

Many of them don't know whether
or not they did.
If they know they didn't, somebody
must be to blame.

Either the Tree Fruit Board didn't
create markets or the shippers gipped
them.

So there's always something out-
rid in Peru.

The Fruit Board keeps a wary eye
on the shippers.
The shippers keep a wary eye on the
Fruit Board.

The growers keep a wary eye on
both.
Just a big, happy family.

The merchant worries while the re-
tailer pays the jobber, while the broker
pays the shipper, while the Fruit
Board closes the pools, while the ship-
per pays the grower.

The merchant is an incurable optim-
ist—yet he worries.
The banker worries, too. But bank-
ers are pessimists.

The newspapers are perplexed. Ed-
itors tear their hair wondering what to
print and what not to print—what to
make of this story or that in an indus-
try presenting situations that change as
remarkably as a chameleon's colours.

After studying all angles and writing
a story, few reporters can scan that
story in print and exclaim in the trium-
phant words of Caesar—"Veni, vidi,
vici."

SOUNDS FISHY

I was collecting some fishy notes
from an enthusiastic angler.
"Believe me," he said in describing a
recent excursion, "I never saw such a
fish!"

"I believe you," I said.

And now, as I reflect that some hus-
bands are so helpless that friend wife
has to thread the needle before they
can sew on a button, I am tempted to
sign off and tackle easier work than
writing a column this week.

Parasit: What's this extra item of
\$10 on my bill?
Doctor: It's for my glasses—I lost
them while operating on you.

* POINTS OF VIEW *

WORK VS. THE DOLE

(Cranbrook Courier)

We have written the word WORK
in capital letters because in that single
word lies the main reason for the vast
federal appropriation—one of the large-
est made in the history of the country.
We want to give men WORK. We
want to end the iniquitous dole busi-
ness. Nothing is so demoralizing to the
country, to its people, to its unem-
ployed citizens as a dole. It destroys
character; it makes men shiftless and
lazy; it is rotten to the core.

THE GAME OF BOWLS

(Comox Free Press)

There must be some special fascina-
tion about the game of bowls. Sir
Francis Drake showed all the world
that a bowler is insensible to every
other consideration when a game is in
progress, and bowlers since then have
shown a spirit which does not appear
to exist in any other form of outdoor
sport.

The only other game which comes
within comparable distance is golf. It
used to be said that one played golf or
bowls, according to one's position and
means, when one became too infirm to
enjoy any other outdoor exercise. That
notion has been killed, and both games
are now played by grown-up people of
all ages, and nearly all classes. Both
games appear easier to play than they
really are, and both differ from most
other games in their aftermath of con-
viviality.

It is here that bowls and golf be-
gin to part company. A bowler's gather-
ing is not necessarily more boisterous
than a golfer's, nor need it be less re-
fined. But it manages in some mysteri-
ous way to give the impression that
there is no ordinary party of men, but a
company which has found a common
interest in something that is outside the
ordinary-run of life—a sort of "mys-
tery."

The vernacular of bowls lends itself
to good fellowship. There appears to
be engendered a spirit of conviviality
by a successful afternoon on the green
which gives the game an altogether
glamorous appeal.

Every Jack on the bowling green has
his gill as well as his Jill, and nowa-
days the Jills have their jacks as well
as their Jacks for—in the Comox dis-
trict, as in a good many other places—
women have invaded the game.

WOMEN LIVE LONGER THAN MEN

(Nelson Daily News)

Analysis of the 1931 census figures
covering England and Wales shows
that women live longer than men in
those countries. In the age group from
95 to 99, women outnumbered the men
by three to one, while there were five
times as many women centenarians as
men. Females in the total population
outnumbered the males by about nine
per cent.

Although Canada's 1931 census
shows a 7½ per cent surplus of males,
when it comes to the older age-groups
women predominate, so in Canada also
they live longer than do the men. The
Canadian figures for the higher age-
groups are as follows:

| Age Group | Men | Women |
|------------|--------|--------|
| 80-84 | 23,877 | 25,294 |
| 85-89 | 8,665 | 10,464 |
| 90-94 | 2,051 | 2,881 |
| 95-99 | 417 | 656 |
| 100 and up | 74 | 89 |

Centenarians are more common in
Canada than in the Old Country, for
while the population of England and
Wales is about three times that of this
Dominion, the last census shows only
156 centenarians there compared with
163 in Canada.

BAN ON HEART-BALM "RACKET"

(Cranbrook Courier)

Itching palms masquerading as broken
hearts, a "racket" in the United
States, which has developed into one
of the most costly modern-day meth-
ods of extortion, is finding its way
across the border line. New York, fol-

BLOSSOM END ROT OF TOMATOES

And Its Relation To Fertilizer Practice

(Experimental Farms Note)

One of the most common and ser-
ious sources of loss to the grower of
tomatoes, both under glass and in the
field, is the disorder known as blossom
rot, dry rot or blossom end rot. The
trouble is characterized by a dry rot of
the blossom ends of either green or
maturing fruits, commencing as a
dark-green water-soaked area. The af-
fected tissues cease to grow and turn
first brown, then black, with the spot
flattening or sunken. The losses may
be moderate, but in severe cases prac-
tically an entire crop may be ruined.

This trouble is not due to any or-
ganism but is caused by faulty growing
conditions. During the progress of
studies carried on in the horticultural
greenhouses at the Central Experimen-
tal Farm, Ottawa, it was observed that
nutrition or the plant food supply had
a marked effect on the occurrence of
blossom end rot.

Care should be taken to avoid cul-
tural or fertilizer treatments that pro-
mote plant growth too rapidly. Too
heavy applications of manure or fer-
tilizer, especially nitrogen, bring about
nutrition or the plant food supply had
a marked effect on the occurrence of
blossom end rot.

It has been found that more slowly
available organic fertilizers such as
tankage or blood meal are less likely
to encourage this trouble than quickly
acting nitrogenous fertilizers such as
nitrate of soda or sulphate of ammo-
nia.

H. HILL,
Central Experimental Farm,
Ottawa, Ont.

Following the example set by Indiana, has
become the second state in the union
to place an official ban on civil suits
for alienation of affections, breach of
promise to marry and other practices
whereby so many women have been de-
manding—and getting—hard cash for
supposedly damaged feelings.

Fortunately for the great republic to
the south of us, women legislators have
been taking the lead in the battle a-
gainst this form of legalized graft.
The two bills which already have be-
come law restrict in no way the opera-
tions of penal law. But they do stop,
as Governor Lauman of New York
points out, civil actions which have
been used to extract large sums of
money without proper justification;
they do halt coercion, extortion and
blackmail.

THE REVOLVER'S BIRTH YEAR

(Nelson News)

This year marks the centenary of the
revolver. It was in 1835 that Samuel
Colt, the inventor, perfected a six-
barrelled rotating breech, patented his
inventions in London and Paris and
made sure of the United States rights.
Colt's picturesque life is an illustration
of the adage "Everything comes to him
who waits." He was born in Hart-
ford, Connecticut, in 1814, and at 14
ran away from a boarding school at
Amherst, Massachusetts, to embark on
a voyage to India. There is a legend
that Colt visited the Tower of London
when his ship was in port there and
got the idea of his famous weapon
from one of the historical exhibits, a
revolving arquebus which belonged to
Henry VIII. Another version is that
he stayed at Warwick Castle with the
fifth Earl and observed a revolving
chamber musket from which he took
his idea. What is certain is that dur-
ing his voyage he constructed a wood-
en model of a revolver. It is still in
existence.

EQUIPMENT AND MATERIAL FOR HOME CANNING

(Experimental Farms Note)

Safe canning of fruits and vegetables
requires care in every step of the pro-
cess. Jars, lids and all utensils must
be absolutely clean.

It is not necessary to have a special
canning outfit for home use, although
one may be purchased if it is desired.
The ordinary wash boiler with a wire
bottle with a tight fitting cover. The
rack or false bottom must be at least
three quarters of an inch from the bot-
tom of the sterilizer and should be
slatted to allow the water to circulate
around the jars. For processing, fill
the sterilizer with warm water at least
two inches above the tops of the jars.
The length of time required varies
with the food being canned. This type
of canner is used for general canning
experiments conducted by the Division
of Horticulture, Central Experimental
Farm, Ottawa.

The steam-pressure cooker is espe-
cially recommended for canning vege-
tables and meats as it gives a higher
temperature than is possible in a hot
water bath.

Over canning is recommended for
fruits and tomatoes. A well insulated,
heat controlled oven is best for this
method of canning. The temperature
should be kept at from 250° F. to 275°
F. without top heat. The filled jars
are placed in a shallow pan of water
and the time allowed should be about
one-third more than in the hot water
bath.

A jar for use in canning should have
a smooth rim and good fitting cover
to furnish a perfect seal. Test each
jar before using it. Half fill with
water, adjust the rubber and cover,
seal and invert, to test for leaks. The
spring tops should snap into place.
Ring tops should not be used if they
become cracked or corroded.

Jar rubbers are a very important
part of canning equipment. Buy fresh
rubbers each season. Never use old
ones. Twelve rubber rings are cheaper
than a jar of fruit or vegetables.
In choosing foods to can, remember
that there is no magic in a jar which
will improve the contents stored in it.
Food comes out pretty much as it
goes in. Fine juicy fruit, perfect
vegetables, and tender plump fowls re-
tain their quality after canning.

M. L. HEENY,
Central Experimental Farm,
Ottawa.

CLIMATE AND SUGAR BEETS

From the data collected during the
past twenty years by the Chemistry
Division of the Dominion Experimen-
tal Farms, a good general idea of
where sugar beets can be grown suc-
cessfully has been obtained. Of the
two main factors considered, namely
soil classification and climatic condi-
tions, the latter appears to be the de-
termining factor for both yield and
sugar content. A cool wet spring pre-

CIVIL SERVICE EXAMS. FOR STENOGRAPHERS

Eligible Lists Expire One Year After
Date Of Establishment

The following regulations contained in
"General Directions," under List
No. 624, Competition 23948, relating to
Civil Service examinations, have been
announced by the Secretary of the
Civil Service Commission, Ottawa, and
will be of interest to stenographers and
prospective stenographers in Kelowna
and district:

"Clause 2.—The purpose of this ex-
amination is to establish an eligible list
for stenographers, Grade 1, and not for
typists. Candidates who enter the
competition must take the shorthand
test and those who fail in shorthand
will not be given standing as typists.

"Clause 3.—Eligible lists expire one
year after the date of establishment,
except in cases where, in the opinion
of the Commission, the public interest
will be served by the continuance of
the list. Since the eligible list for
stenographers, Grade 1, or stenograph-
ers, Grade 2, unless they are assured of
continued employment, are advised to
qualify again by taking this examina-
tion."

Full particulars, together with applica-
tion forms, may be obtained from the
Post Office, or Herbert's Business
College. Applications must be filed
with the Civil Service Commission, Ot-
tawa, not later than June 4, 1935.

vents seeds germinating, and a poor
stand is the result. A hot, dry summer
retards growth, giving small roots and
a low yield, and a cold dull autumn,
often with frosts before harvesting,
prevents the proper maturing of the
beets at a time when sugar formation
is taking place. Thus, the ideal sea-
sonal conditions are a warm spring
with sufficient precipitation to ensure
good seed germination, a growing sea-
son with plenty of rain and a mild
open autumn with considerable sun-
shine. These conditions vary every
year and explain why one district pro-
duces good beets of high sugar content
one year and beets of poor quality the
next. A dark loamy soil seems to be
best for sugar beet growing. Beets
are very susceptible to soil acidity and
liming of the soil is necessary. It is
now recognized that for best results
plenty of fertilizer must be used and
phosphoric acid seems to be the most
important element.

Teacher—Tommy, where was the
American Declaration of Independence
signed?

Tommy—At the bottom, I guess.

An Easy Way To Get— REAL PICTURES of MAY 24 SPORTS is with a CINE-KODAK EIGHT

Enjoy the thrill of making your own movies! With the Cine-Kodak Eight sparkling, lifelike pictures are yours for as little as 10c a "scene." It makes from 20 to 30 scenes on a \$2.50 roll of film.

ASK FOR Kellogg's

Be sure
you get

Kellogg's

There are good reasons why you should insist on Kellogg's when you buy corn flakes. You can rely on their absolute purity and uniform quality. No imitation has ever matched their flavor and crispness. And no other corn flakes are protected by the heat-sealed WAXTITE inner bag, that keeps Kellogg's oven-fresh.

The red-and-green package gives you outstanding value. Many generous servings for a few cents. Kellogg's—the original Corn Flakes—are today the largest-selling ready-to-eat cereal in the world. At all grocers. Quality guaranteed. Made by Kellogg in London, Ontario.

LETTERS TO THE EDITOR

JUVENILE BAND AS MEANS OF SAVING YOUTH

Kelowna, May 20, 1935.

To the Editor,
Kelowna Courier.

Dear Sir,
My letter to the citizens of Kelowna today is on the subject of saving our youth, and what better subject could we consider at this time of the year?

With the return of another season of growing new crops, which we all stand in need of, and with other industries being launched, we still have the unemployment situation amongst us to deal with and money is almost as tight in some respects as it ever was in any way. Our young people, many of them, are in all ages of the adolescence stage, restless in many ways, many of them resorting to questionable means of obtaining money, such as two-thirds of our criminal youth who are in houses of detention as it ever was in any way.

Now why not, Mr. Editor, take up the project of helping to save our youth in this part of the valley by getting a boys' band started? Scrap the present one and out of the ruins save the best of the instruments, in which the City has an interest, and with a few volunteer ones, get a start with about sixteen pieces. There are around Rutland a few fairly good instruments—parts of a band that was started a few years ago. We have some splendid material, and all it needs is an executive manager who loves young people and will volunteer his help for at least two years. The executive manager would act in an advisory capacity with a board of management outside of the players.

As this is the centre of the Okanagan Valley and headquarters for the Musical Festival, we should have in the course of two more years a boys' band of about forty pieces almost on a par with the famous Kitchener Band. Other bands would then be careful of trying to compete with us, if we had something decent.

Now, as to financing this organization. If we get together wholeheartedly, the basis of a dime from each person should enable it to operate. Many of us spend much money in ways far less useful.

I would like to hear from the clergy and educational people as to what they have to say in regard to the subject of saving our youth.

Yours very truly,

WESLEY SEARLE.

GREEN DUCKS ARE MONEY MAKERS

(Experimental Farms Note)
Growing green ducks is a sideline of the farm which returns handsome profits for the money invested. Experimental work at the Central Experimental Farm, Ottawa, shows that ducklings of the Pekin breed averaged six pounds each in ten weeks, and were reared to that stage on an average of three and one-half pounds of feed to one pound of duckling. Green ducklings find a ready sale at prices ranging from 20 cents a pound upward, and net a handsome profit for the grower. Ducklings of the Pekin breed made at least one-half a pound heavier gains than those of other breeds. The Pekin is the most desirable breed when ducklings are wanted to mature early as green ducks. They are good feeders and rapid growers, and respond to special methods of feeding.

Frequent feeding promotes rapid growth. Young ducklings should be fed six times daily from the start until they are about 18 to 20 days old, and five times daily during the remainder of the growing and fattening period until they are ready for market.

The feed used for growing ducklings at the Experimental Farm, Ottawa, is equal parts of bran, shorts and cornmeal with about ten per cent linseed meal added. A little charcoal (about one per cent) is also recommended. This mash should be moistened with water, but not made sticky or sloppy.

Add only sufficient water to make the mash stick together. Sprinkle coarse sand over the mash before feeding. The sand serves as grit and aids in the process of digestion. Feed only what the ducklings will eat up clean at each feeding.

The feeding of green feed after the fourth or fifth day will help to reduce the cost of feed and assist in keeping the ducklings healthy during the forcing period. Freshly cut clover or alfalfa which has been chopped up fine makes excellent green feed. Mix only a small amount of this finely chopped green feed with the mash at first, and gradually increase the amount until about one week later the green feed will make up twenty per cent of the mash.

When the ducklings are about six weeks old the green feed should be gradually eliminated and at the commencement of the seventh week the mash should be changed to one possessing more fattening properties. The fattening mash used at Ottawa is 50 pounds cornmeal, 35 pounds shorts, and 15 pounds beef meal, with a sprinkling of coarse sand.

By the time the ducklings are ten weeks old they should be in excellent flesh, and have developed their first coat of body feathers. This is the right time to market them. If they are kept longer they will change their feathers, and the rate of growth will decrease, thus increasing cost and reducing profit.

A. G. TAYLOR,
Central Experimental Farm,
Ottawa, Ontario.

The celery plant, known to botanists as "apium graveolens," is a biennial in so far as seed production is concerned but is grown as an annual for market purposes. Its distribution is worldwide and the plant inhabits marshy places in its natural condition. It belongs to the great family which includes parsley, carrots, parsnips, caraway and fennel.

Birthday, says a novelist, give me food for thought. Dates?

RECORDS CRASH AT SCHOOLS TRACK SPORTS

(Continued from Page 1)

Final Standing

The final standing of the schools was as follows:

| High Schools | |
|--------------|-----|
| Penticton | 106 |
| Kelowna | 54 |
| Armstrong | 26 |

| Public Schools | |
|----------------|----|
| Kelowna | 69 |
| Penticton | 66 |
| Mission Creek | 5 |
| East Kelowna | 3 |
| Bennoville | 0 |

(Several of the smaller valley schools were also represented.)

Cup Winners

Kelowna Cup, for the highest aggregate in the Public School division—Kelowna Public School.

Vernon Cup, for the highest aggregate in the High School section—Penticton High School.

Ramsay Cup, for the High School boys' relay—Penticton.

Whitton Cup, for the High School girls' relay—Kelowna.

Casorso Cup, for the Public School boys' relay—Kelowna.

Canadian Bank of Commerce Cup, for the Public School girls' relay—Penticton.

Jacques Cup, awarded to the small school making the best showing—Mission Creek.

Bank of Montreal Cup, for the mile race—M. Lynch, Armstrong, who also won this trophy last year.

Penticton Herald Cup, for the 100 yards dash, boys under 21—E. Elgar, Penticton.

Summerland Review Cup, for the 220 yards, boys under 21—Cecil Glass, Penticton.

Saguel Cup, for the 440 yards, boys under 21—C. Hamilton, Armstrong.

Daisy Hansen Cup, for the 100 yards dash, girls under 21—Joan McCall, Kelowna.

Herbert McGregor Cup, for boys' high hurdles—C. Thom, Penticton.

Brotherhood of Locomotive Engineers Cup, for low hurdles, girls under 21—June Swinme, Penticton.

W. W. Pettigrew Cup, for the 75 yards dash, girls under 16—Marion Todd, Kelowna, who was also last year's winner.

T. G. Norris Cup, for the discus throw—C. Thom, Penticton.

D. Chapman Cup, for the high jump, boys under 16—G. Coy, Penticton.

H. Rattenbury Cup, for the pole vault, boys under 21—C. Tostenon, Kelowna.

George Meikle Cup, for the 100 yards dash, boys under 16—J. Hooper, Penticton.

W. Maddin Cup, for the high jump, boys under 21—R. Hayman, Kelowna.

A. McKay Cup, for the broad jump, boys under 21—T. Murray, Penticton.

Cranna Cup, for the 880 yards, boys under 21—M. Lynch, Armstrong.

Penticton Rotary Club Cup, for the low hurdles, boys under 21—G. Hope, Penticton.

Thomson Cup, for the shot put, boys under 21—G. Hope, Penticton.

Kelowna Junior High School Cup, for the pole vault, boys under 16—J. Tostenon, Kelowna.

(The last two are new cups donated this year. The Thomson Cup was donated by the Thomson Jewellery Store, Kelowna, and the trophy for the pole vault by the Students' Council of the Kelowna Junior High.)

Detailed Results

Shot Put, boys under 21—1. G. Hope, Penticton; 2. B. Harris, Penticton; 3. H. Hobson, Kelowna. Distance: 34 ft. 9 ins.

Low Hurdles, boys under 16—1. J. Christian, Kelowna; 2. M. Adams, Penticton; 3. T. Thomas, Penticton. Time: 18 3-5 secs.

Low Hurdles, boys under 18—1. D. Cranna, Penticton; 2. C. Tostenon, Kelowna. Time: 17 secs.

Low Hurdles, boys under 21—1. G. Hope, Penticton; 2. P. Caccia, Kelowna. Time: 16 3-5 secs. Equals record.

Low Hurdles, girls under 21—1. J. Swinme, Penticton; 2. E. Cook, Penticton; 3. V. Woods, Kelowna. Time: 11 3-5 secs. New record.

High Jump, boys under 14—1. L. Sanger, Kelowna; 2. A. Gordon, Penticton. Height: 4 ft. 6 1/2 ins. New record.

Broad Jump, boys under 21—1. T. Murray, Penticton; 2. R. Harris, Penticton; 3. P. Caccia, Kelowna. Distance: 18 ft. 7 ins.

440 yards race, boys under 21—1. C. Hamilton, Armstrong; 2. N. Hooper, Penticton; 3. J. Snowsall, Kelowna. Time: 56 2-5 secs.

50 yards, boys under 10—1. J. McGannon, Penticton; 2. K. Duggan, Kelowna; 3. T. Thailka, Bennoville. Time: 7 2-5 secs. Equals record.

Pole Vault, boys under 16—1. J. Tostenon, Kelowna; 2. L. Campbell, Penticton; 3. L. Noble, Kelowna. Height: 8 ft. 9 ins. New record.

50 yards, girls under 10—1. M. Herbert, Kelowna; 2. J. McQuiston, Penticton. Time: 7 4-5 secs. Equals record.

50 yards skipping, girls under 12—1. M. Kirkby, Penticton; 2. R. Seigfried, Kelowna; 3. A. McElroy, East Kelowna. Time: 7 3-5 secs.

220 yards, boys under 21—1. C. Glass, Penticton; 2. E. Elgar, Penticton; 3. W. Arthur, Kelowna. Time: 24 2-5 secs.

High Jump, boys under 16—1. G. Coy, Penticton; 2. A. Gillard, Mission Creek; 3. D. Gordon, Kelowna. Height: 5 ft. 1-8 ins.

880 yards, boys under 21—1. M. Lynch, Armstrong; 2. A. McKenzie, Kelowna; 3. C. Harvey, Penticton. Time: 2 2-5 mins. 14 2-5 secs.

High Hurdles, boys under 21—1. C. Thom, Penticton; 2. F. Hawkins, Armstrong; 3. J. Woodburn, Penticton. Time: 18 secs.

Broad Jump, boys under 16—1. G. Coy, Penticton; 2. J. Tostenon, Kelowna; 3. J. Harris, Penticton. Distance: 16 ft. 9 1/2 ins.

50 yards, girls under 12—1. M. Kirkby, Penticton; 2. P. Locke, Kelowna; 3. A. McElroy, East Kelowna. Time: 7 3-5 secs.

FIGHTS BLASPHEMY VERDICT

Rev. Victor Rahard, French-Canadian rector of an Anglican church in Montreal, recently was found guilty in a Montreal court of blasphemous libel, but at once took steps to appeal the verdict.

7 secs. 220 yards, boys under 16—1. J. Hooper, Penticton; 2. R. McCall, Kelowna; 3. J. Clarke, Penticton. Time: 25 2-5 secs.

Discus—1. C. Thom, Penticton; 2. D. Cranna, Penticton; 3. H. Hobson, Kelowna. Distance: 77 ft. 8 ins.

100 yards dash, girls under 21—1. J. McCall, Kelowna; 2. D. Tily, Penticton; 3. D. Anderson, Kelowna. Time: 12 secs. New record.

100 yards dash, boys under 18—1. C. Glass, Penticton; 2. T. Murray, Penticton; 3. H. Burks, Kelowna. Time: 11 secs.

Shuttle Relay, girls under 14—1. Kelowna; 2. Penticton; 3. Mission Creek. Time: 28 secs. New event.

75 yards, girls under 16—1. M. Todd, Kelowna; 2. C. McRae, Penticton; 3. J. Blakeborough, Kelowna. Time: 9 secs. Equals record.

Broad Jump, boys under 14—1. H. Finlayson, Penticton; 2. B. Jennings, Kelowna; 3. B. Thompson, East Kelowna. Distance: 15 ft. 1/2 ins.

50 yards, boys under 12—1. R. Herbert, Kelowna; 2. A. McFarlane, Mission Creek; 3. E. McEachern, Bennoville. Time: 7 secs. Equals record.

100 yards, boys under 21—1. E. Elgar, Penticton; 2. C. Hamilton, Armstrong; 3. N. Hooper, Penticton. Time: 10 4-5 secs.

50 yards, girls under 14—1. J. Swinme, Penticton; 2. K. Wagner, Kelowna; 3. M. Lindsay, Okanagan Falls. Time: 6 3-5 secs.

Public School Relay, boys, 440 yards—1. Kelowna; 2. Penticton. Time: 50 4-5 secs. New record.

Pole Vault, boys under 21—1. C. Tostenon, Kelowna; 2. D. Sharp, Penticton; 3. C. Price, Kelowna. Height: 9 ft. 5 1/2 ins.

High School Relay, girls—1. Kelowna; 2 and 3, Penticton. Time: 53 4-5 secs. New record.

Public School Relay, girls—1. Penticton; 2. Kelowna. Time: 36 4-5 secs. New record.

High Jump, boys under 21—1. R. Hayman, Kelowna; 2. F. Hawkins, Armstrong; 3. R. Boss, Armstrong. Height: 5 ft. 7 1/4 ins.

100 yards dash, boys under 16—1. J. Hooper, Penticton; 2. R. McCall, Kelowna; 3. J. Gibb, Penticton. Time: 11 1-5 secs.

75 yards, boys under 14—1. L. Sanger, Kelowna; 2. H. Finlayson, Penticton; 3. D. Taylor, Summerland. Time: 9 3-5 secs.

75 yards, girls under 18—1. M. Todd, Kelowna; 2. I. Bromley, Penticton; 3. D. Tily, Penticton. Time: 0 secs. New record.

High School Relay, boys—1. Penticton; 2. Kelowna; 3. Armstrong. Time: 1 min., 41 secs.

LAMB MEAT FOR WARMER WEATHER

This is the season of the year when most people prefer a more selective diet. The use of meat in particular should be given special consideration when the weather is warm.

Lamb is considered by doctors and dietetic experts to be one of the lightest and most healthful of meats. Even persons whose digestive system has to be catered to in the most careful way find that lamb meets the desired requirements.

Lamb of quality is now available from one end of Canada to the other. Fresh killed feed-lot lambs grown on the Western ranges and fattened by farmers constitute a steady and regular supply of select meat from which choice roasts, excellent lamb chops and lamb for stews can be served to customers in meat stores and butcher shops. Baby grass-fat lamb produced on the best of Canadian grasses will soon be available in plentiful quantities at reasonable prices.

At the present time, lamb may be considered one of the bargain meats. Lamb, like veal, has to depend on domestic consumption for its market. For there is no export outlet for either of these commodities. However, no reasonable cost than lamb for providing a staple and healthful meat supply during the spring and early summer months.

There are three families of carnivorous plants in Canada. In order to obtain the nitrogen necessary for their growth and development, they utilize the bodies of small animals and insect instead of getting the nitrogen from the soil like ordinary plants. The pitcher plants, sundews, butterworts and bladderworts are typical examples of these.

Bad cooking is said to be one cause of many unhappy marriages. It takes stew to make a quarrel.

CUTWORM CONTROL

Although the farmer knows much about the matter, the amateur gardener little suspects that long before he has his highly-prized seeds an enemy has been waiting in preparation for immediate assault. This is the cutworm, which attacks all kinds and conditions of plants, and, so far as agriculture is concerned, is such a menace that each year the Dominion and Provincial Departments of Agriculture publish the latest intelligence on the most effective means of counteracting the ravages of this destructive pest. Bran bait, says the Dominion Department of Agriculture, has given most effective control for many years and it is made up as follows: bran, 20 pounds; Paris green, 1/2 pound; molasses, 1 quart; and water, about 2 1/2 gallons. In making the bait, the dry ingredients should be mixed thoroughly first. The molasses is then stirred into the water and this solution added to the bran and Paris green. In mixing the bait, only enough water should be added to reduce the material to the consistency of wet sawdust. The mixture must not be made sloppy but should be so that it will crumble in the hands and slip through the fingers easily. Land that was heavily infested last year should be treated before the plants are set out. This is done by broadcasting the bait at the rate of 15 to 20 pounds per acre a few nights before transplanting. The bait should be spread in the evenings just before dusk, and, if possible, on a still warm night.

According to the latest statistics, Canadians consumed 30,922 pounds of butter, 3,640 pounds of cheese, and 6,280 pounds of concentrated milk products per head of population during 1934.

WATER NOTICE

Use And Storage

TAKE NOTICE that Estate Thomas Bulman, deceased, whose address is R.R. No. 1, Kelowna, B. C., will apply for a licence to take and use 150 acre feet and to store 150 acre feet of water out of Whelan Creek, also known as Poplar Creek, which flows westerly and drains into Mill Creek about Christian Ranch.

The storage-dam will be located at about S.E. corner of S.E. 1/4 Sec. 18, T. 24, R. 12, E. 1. The capacity of the reservoir to be created is about 150 acre feet and it will flood about 30 acres of land. The water will be diverted from the stream at a point about S.E. corner of S.W. 1/4, said Sec. 18, and will be used for irrigation and incidental purpose upon the land described as part Lots 33, 34 and 35, Map 475, and easterly portion of an unnumbered block in Plan 475 within D.L. 121, Gp. 1, O.D.V.D.

This notice was posted on the ground on the 14th day of May, 1935.

A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Kelowna, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of

"SOUL AND BODY" will be the subject of the Lesson-Sermon on Sunday.

The Golden Text is: "My soul longeth, yea, even fainteth for the courts of the Lord; my heart and my flesh crieth out for the living God." (Psalm 84: 2.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "We are confident, say, and willing rather to be absent from the body, and to be present with the Lord." (II Corinthians 5: 8.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Sooner or later we shall learn that the fetters of man's finite capacity are forged by the illusion that he lives in body instead of in Soul, in matter instead of in Spirit."

GUIDE OF HEALTH

Thou hast been a strength to the poor, a strength to the needy in his distress, a refuge from the storm, a shadow from the heat, when the blast of the terrible one is as a storm against the wall.—Isaiah xxxv. 4.

O souls who feel the conflict and oppression of evil, know that Jesus has suffered for you beyond all that you can understand. He overcame for you, and now He stands, your Saviour, waiting to draw you to Himself. Come to Him, weary, tempted and storm-tossed. He will take shelter in the sanctuary of His heart, and He will Himself deal with the evil that oppresses you, and grant you complete deliverance.—J. M. Hickson.

The Canadian species of climbing plants employ five methods of locomotion, by roots, as in the poison ivy growing away from light and becoming attached to crevices or other suitable objects; by twining; by leaf stalks like clematis; by hooks; and by tendrils, as in the Virginia creeper, wild grape, vetches, etc.

Canadian turkeys enter Great Britain free of duty. From May 2, 1935, the duty on foreign turkeys entering the British Isles has been raised to six cents per pound in place of the former duty of two cents per pound.

HEAVY WEATHER

By P. G. WODEHOUSE

World-Famous British Humorist

CHAPTER XVI.—Continued

Beach sat in his pantry, sipping brandy. If ever a butler was entitled to a glass of brandy, that butler, he felt, was himself. He rolled the stuff round his tongue, finding a certain comfort in the fiery sting of it. His heart was heavy. It was a kindly heart, and from the very first it had been deeply stirred by the stormy lady. He wished that life were as the writers of the detective stories to which he had become addicted portrayed it. In those, no matter what obstacles Fate might interpose in the shape of gangs, shots in the night, underground cellars, sinister Chinamen, poisoned asparagus and collared down chimney, the hero always got his girl. In the present case, Beach could see no such happy ending. The significance of the presence in the library of Lady Constance Keeble and Lady Julia Fish had not escaped him. He feared that it meant the worst.

Eighteen years in close association with Clarence, Earl of Farnsworth, had left the butler with a very fair estimate of his overlord's character. He wished well to everyone—Beach knew that. But where viewpoints clashed and arguments began, a passionate desire for peace at any price would undoubtedly lead him to decide in favour of whoever argued loudest. And eighteen years of close association with Lady Constance Keeble told Beach who, on the present occasion, that would be.

He saw no hope. Sighing despondently, he helped himself to another glass of brandy. Usually at this hour he drank port. But port to him was a symbol. He never touched it till dinner was over and the coffee served, and it signified that the responsibilities of his office were at an end and that until the morrow should bring his new cares and duties, his soul was at rest. Port tonight would have been quite unsuitable.

Sighing again and about to start sipping once more, he became aware that he was no longer alone. Mr. Ronald Fish had entered the room.

"Don't get up, Beach," said Ronnie. "He sat down on the table. His face had a pinkness deeper than his wont. There was a repressed excitement in his manner. The butler was reminding of that other occasion, ten days ago, when this young man had come into his pantry looking much the same as he was looking now, and having announced that he intended to steal his Lordship's pig, had proceeded to cajole him into becoming his accomplice and helping him to feed the animal. The weighing machine in the servant's bathroom had informed Beach that he had lost three pounds in two days over that little affair.

"Bad show, this, Beach," Beach stirred mountaineously. Solitude shone from his prominent eyes. It has already been mentioned that Beach in the drawing-room and in his pantry were different entities. He was now in his pantry, where he could cast off the official mask and be the man with whom a younger Ronnie had once played bears on this very floor.

"Extremely, Mr. Ronald. Then you have heard?"

"Heard?" "The unfortunate news."

"You were there when I heard it. In the hall."

The butler rolled his eyes, to indicate that there was something much more Stop Press than that.

"The Empress has eaten Mr. Galahad's book, Mr. Ronald."

"What?" "Yes, sir. Somebody apparently left it in her study, and she was devouring the last of it when His Lordship found her."

"Pilbeam!" "So one would be disposed to imagine, Mr. Ronald. No doubt he had employed the sty as a hiding place."

"Quite gone, Mr. Ronald."

"And Aunt Constance knows about it."

"I fear so, Mr. Ronald."

Ronnie's face became a little pinker. "Well, it doesn't make much odds. There was never any chance of its covering it from Pilbeam. That's why I think I could do with a spot of that brandy, Beach."

"Certainly, sir. I will get you a glass. Why you—You were saying, Mr. Ronald?"

"Oh, just a sort of decision that I came to. . . . This is very good stuff, Beach."

"Yes, sir."

"A sort of decision," said Ronnie, sipping pensively. "I don't know if you noticed that I was a bit quiet at dinner."

"You did strike me as somewhat silent, Mr. Ronald."

"I was thinking."

"Thinking," repeated Ronnie. "Doing a bit of avenue exploring. I came to this decision with the fish."

"Indeed, sir?"

"Yes, And I think it will work too."

Ronnie swung his legs for a while without speaking.

"Have you ever been in love, Beach?"

"In my younger days, Mr. Ronald. It never came to anything."

"Love's a rummy thing, Beach."

"Very true, sir."

"Sort of keys you up, if you understand me. Makes you feel you'd stick at nothing. Take any chance. To win the girl you love, I mean."

"Quite so, sir."

"Go through fire and water, as you might say. Brave every peril."

"No doubt, sir."

"Got another dollop of that brandy, Beach?"

"Yes, sir."

"Well, there it is," said Ronnie, emptying his glass and holding it out for fresh supplies. "Half-way through the fish course I made up my mind. Now that the manuscript has gone, I'm up against it. At any moment Aunt Constance will be at Uncle Clarence, telling him not to give me my money."

The butler coughed commiseratingly. "I rather fancy, Mr. Ronald, that Her Ladyship will be in the act of doing so when I entered the library not long ago."

"Then by this time she has probably clicked."

"I fear so, Mr. Ronald."

"Right!" said Ronnie briskly. "Then there's nothing left but strong measures. The time has come to act, Beach."

"I'm going to steal that pig."

"What? Again, Mr. Ronald?"

Ronnie eyed him affectionately. "Ah, you remember that other time, then?"

"Remember it, Mr. Ronald? Why it was only ten days ago."

"So it was. It seems years. Not that I can't recall every detail of it. I haven't forgotten how staunchly you stood by me then, Beach. You were splendid."

"Thank you, sir."

"Wonderful! Marvellous!" continued Ronnie in an exalted voice. "I doubt if there has ever been anybody who has been of an affair better than you did out of that one. A sportsman to the finger tips, that's what you showed yourself. And don't," said Ronnie earnestly, "think that I didn't notice it either. I appreciated it very much, Beach."

"It is very kind of you to say so, sir," said the butler, his head swimming. "You're a fellow that a fellow can rely on."

"Thank you, sir."

"Through thick and thin."

"Thank you, sir."

"When I got this idea of stealing the Empress this second time, Miss Brown said to me, 'Oh, but you can't ask Beach to help you again.' And I said, 'Of course I can. Apart from the fact that Beach and I have been pals for eighteen years, he's devoted to you.' And she said, 'Is he?' And I said, 'You bet he is. There's nothing in the world Beach wouldn't do for you.' And she said, 'The darling! Just like that, and you should have seen the look in her eyes as she said it. Beach. They went all soft and dreamy. I believe if you had been there at that moment, she would have kissed you. And I shall be greatly surprised," said Ronnie, with the air of one offering a treat to a deservingly child, "if when everything is over and you've been as staunch as you were before and chipped in and done your bit again, as you did then, she doesn't do it."

All through this moving address the butler had been shaking and rumbling in a manner which would have reminded an eye-witness irresistibly of a volcano on the point of finding self-expression. His eyes had bulged and his breathing was coming in little puffs.

"But, Mr. Ronald?"

"I knew you would be pleased, Beach!"

"But, Mr. Ronald?"

Ronnie eyed him sharply. "Don't tell me you're thinking of backing out?"

"But, sir?"

"You can't at the last moment like this, after all our plans have been made. It would upset everything. I can't act without you. You wouldn't let me down, Beach?"

"But, sir, the risk!"

"Risk? Nonsense!"

"But, Mr. Ronald, His Lordship was notified on the telephone in my presence not half an hour ago that an attempt was to be made upon the Empress tonight. I have only just returned from seeing Pirbright and conveying His Lordship's instructions to him to be on his guard."

"Well, that's fine. Don't you see how this fits in with our plans? Pirbright will be waiting for this chap. He will catch him. And then what will he do, Beach? He will march him off to Uncle Clarence, leaving the coast absolutely clear. While he's gone, we nip in and collar the animal without the slightest danger or inconvenience."

The butler puffed silently. "Think what it means, Beach! My happiness! Miss Brown's happiness! You aren't going to go through the rest of your life kicking yourself at the thought that a little zeal, a little of the pull-together spirit on your part would have meant happiness for Miss Brown?"

"But if I were detected, sir, my position would be so extremely equivocal."

"How can you be detected? Pirbright won't be there. Nobody will be there. I only need your help for about five minutes. This isn't like last time. I'm not planning to hide the Empress somewhere and feed her. This is the real, straight kidnapping stuff. Just five minutes of your time Beach—just five little minutes—and you can come back here and forget all about it."

Strong tremors continued to shake the butler's massive frame.

"Really only five minutes, Mr. Ronald?"

"Ten at the outside. I forgot to tell you, Beach, that one of the things Miss Brown said about you was that you reminded her of her father. Oh, yes, and that you had such kind eyes."

The butler's mouth opened. Lava might have been expected to flow from it, for his resemblance to a volcano had now become exceptionally close. But it was not lava that emerged. What did so was a strangled croak. This was followed by a remark which Ronnie

did not catch.

"Eh?"

"I said, 'Very good,' Mr. Ronald," said Beach, looking as if he were facing a firing squad.

"You'll do it?"

"Yes, Mr. Ronald."

"Beach," said Ronnie, with emotion, "when I'm a millionaire, as I expect to be a few years after I've put my money in that motor business, the first thing I shall do is to come to this pantry with a purse of gold. Two purses of gold. Dash it, a keg of gold. I'll roll it in and knock off the lid and tell you to waste in and help yourself."

"Thank you, Mr. Ronald."

"Don't thank me, Beach. You're the fellow who's entitled to all the gratitude that's going. And, talking of going, shall we be? There isn't a moment to lose. Shift ho, yes?"

"Very good, Mr. Ronald," said the butler in a strange, deep rumbling voice, not unlike that of Mr. A. L. Disher on the telephone.

(To be continued)

PROSPECTS FOR FRUIT CROP SEEM GOOD

(Continued from page 3)

found at this time. Some growers have reported some bud injury to cutworms in some sections, but it is not expected to reduce the crop to any great extent. Perhaps the most damage to the raspberry canes this past winter was caused from the heavy snowfall breaking off the canes near the ground. A number of growers have reported damage to their plantations in this way.

Cherries on the whole are showing a very heavy bloom and the trees are in a healthy condition. Weather conditions were none too favourable at blossom time for insect life, so the set may not be any too good. However, at the present time the weather is warming up and with a few warm, sunny days, the later bloom will have a better chance to set.

Pears and apples give promise of a heavier bloom than last year. Most varieties of apples are now just coming into the full "pink," and the "pink" spray for the control of apple scab is now being put on. Full bloom of apples will be around the 20th.

All vegetables were planted late this year and have been very slow in coming through the ground. A few early potatoes are just up, and the late crop is now being planted.

Grand Forks
As reported May 15th: The past winter was one of the longest experienced for many years in the Grand Forks district, with a late spring. The result is that crops are about three weeks later than usual in spring growth. There has also been more wind than usual, which has dried out the surface moisture and retarded growth. However, there is more moisture in the soil than for many years and with warmer weather the crops should make very rapid growth.

Very cold temperatures were experienced for a few days in January, but there is little evidence of winter killing in the orchards and small fruits. A heavy crop of tree fruit is indicated at the present stage of blossom development. There has been considerable loss in winter wheat in the district owing to late spring and hard freezing after the snow covering had gone.

Planting of early potatoes is under way and the vegetable crops have been all seeded. There will be a considerable increase in the acreage for vegetable seeds. The seed crops being grown are onions, carrots, spinach, lettuce, radish, beans, beets, cabbage, cucumber and squash.

Creston
As reported May 13th: The winter was marked by an open moist fall, continued cold until mid-winter when the weather turned suddenly very cold with a sharp severe drop, and has continued backward, cold and chilly up to date.

No root injury occurred in the orchards as there was ample snow protection, but buds of all tender fruit trees were injured, especially on all low areas. A few weeks after the snow melted, a cold snap occurred which affected tender ground plants in the gardens, and caused heaving of clover and alfalfa in low lying areas.

All peach and apricot buds were affected except in the highest locations. Cherry buds were affected in all lower situations, damaging perhaps about twenty per cent of the bloom.

The blossom period is about three weeks later than last year, but gives every indication of a good show of bloom. Cherries, plums and pears are heavy, and most apples, especially winter varieties, give good promise.

Strawberries where mulched came through the winter in excellent shape. A very heavy drop is expected but it will be the third week in June before any local berries will be available.

Raspberries were affected, and about ten per cent of the canes are slow in budding in the low situations. Moisture conditions are good, so that a full crop may be expected.

Growers are busy spraying as the trees are just coming into the "pink." Pears are in full bloom, cherries are over. Very little rain has fallen this spring, April being very dry, and somewhat windy with cold nights, but conditions have improved very slowly this month.

MILITANT PRIEST

Rev. Charles E. Coughlin, priest of the Shrine of the Little Flower, caught by the camera as he addressed a crowd of 25,000 persons that packed the Olympia Arena in Detroit, Mich., for the first meeting of his country-wide drive in a crusade to make his National Union for Social Justice an effective instrument for changing the present social, economic and financial structure.

PEACHLAND

The total pack of fruit of all kinds amounted to 56,550 packages for last year from the Walters, Ltd. packing house, with 35,000 of these apples and the rest made up of 3,000 crabs, 2,000 pears, 7,000 peaches, with an extra 500 or 600 of ripe peaches, 2,200 plums, 250 prunes, 1,500 apricots and 4,000 cherries, and 1,000 sacks of onions. The Macs, which were about 15,000 cases, were almost half the total for apples. A bigger crop is expected this year in everything but peaches, which will be very light.

The funeral of the late Mrs. Louisa Cathleen Margaret Miller was held from St. Margaret's Church on Tuesday morning at 11 o'clock, with the Rev. H. A. Solly in charge. The pallbearers were old friends of the family, Mr. Howard Thom, of Kelowna, Major K. Tailour, Mr. E. Drought, Mr. Maitland Featherstonhaugh, Mr. J. H. Wilson and Mr. Cecil Clarke, of Westbank.

Mrs. Miller, who passed away on Monday morning after a long period of invalidism following several serious operations, will be missed by her many friends through the district. She was most active in church work prior to her illness, and was a prominent member of the Women's Auxiliary of St. Margaret's Church. Taking a keen interest in boating, she three times won the Empress Theatre Cup at the Kelowna Regatta.

Born in Ireland 62 years ago, Mrs. Miller came to British Columbia many years ago, living first at Cranbrook and later at Victoria. In 1916 she came to Peachland and was married the following year to Aleck Miller, who survives her.

A most interesting meeting was held at the home of Mrs. E. H. Pierce on Friday afternoon, when the Women's Christian Temperance Union observed Mother's Day. Mrs. W. C. Kelly and Mrs. Gayton, of Summerland, were guests for the occasion.

A rally of the Baptist Young People's Societies of Kelowna, Summerland and Peachland was held on Thursday in the Baptist Church here. On Monday evening the Rev. J. Scott, of Summerland, delivered a lecture in the church on the subject of the life of Dr. Spurgeon.

A CHAIN LETTER

Here's Your Chance, Folks! Trust The Chain And Pay Up

M. T. Jeans, Lucky Strike, N.C. Hugh R. Gullible, Oshkosh, Wis. Phillip Hippocket, Box 9 Toronto. Ophelia Head, Box 9 Toronto. E. Z. Munney, Box 9 Toronto. Ina Fawd, Crooked Bend, Ont. Don't be a fugitive from the chain letter gang!

This chain was started in the hope of bringing prosperity to you.

Scratch the lady at the bottom of the list and in return send her \$1.562.50 in one-cent stamps, neatly wrapped in oilcloth and tied with gay ribbon. At the top of the list or on another page add the name of anybody you can think of. Addresses aren't necessary—they'll never get them.

Within ten minutes make 500 copies of this letter and hand or mail to your best friends. If they won't take them drop them in the nearest waste basket and forget the whole matter. Just so the chain won't be broke, even if everyone else is.

In turn, as your name leaves the top you won't get a dime. A lady in Denver, however, got one broken Scout knife, one E-flat oboe, six old felt hats, 15,625 old razor blades, one boat anchor, two genuine glass alleles and a ride on the back of a motorcycle.

Now—this isn't worth ten cents to you!

Have the faith your friends had. Let's put out the lights and go to sleep.

In a new thriller the villain drowns his two brothers in the household cistern. Strained relations?

RUTLAND

Mr. "Buster" Welter left on Thursday on the C.N.R. excursion for Vancouver. His many friends wish him every success on his new adventure.

Final practices are being held in the Hall by the Scouts and Cubs for their thirteenth annual Display, which will be followed by a dance. Old Scout Oliver Jackson is assisting with the scenery, etc., and the Troop and Pack are indebted to the pupils of Mr. Humphreys' division for the number of fine posters made for the event. The dance will last until 2 a.m. and refreshments will be on sale. The Cubs will sell candies and ice-cream cones during the concert. Ice-cream, coffee and cake will be on sale during the dance. "Les" Elmore will supply the music, which is always popular with the local dancing crowd.

Miss May Sabine, of Kerrisdale arrived last Thursday to spend a month or six weeks holiday with Mr. and Mrs. W. Hardie. She is delighted with the beautiful apple blossoms.

During the last few days, the district has been looking like winter, looking from a height. It seems that every apple tree is just covered with blossoms, which gives a very wintry effect. It is to be hoped that there will be a good "set" and it is the earnest hope that there will also be a better price for the fruit.

On Thursday evening the "Adanacs" met the Winfield aggregation in a hard "hit and run" baseball battle on the local school field. The official final score was tied at 11-all. Winfield started the battery, hitting Bach for several runs, but Adanacs pulled up and were leading in the latter innings. However, Winfield managed to tie the score as the light began to fail and the game came to an end. There was a good crowd of supporters, both from Winfield and locally.

Following the game, the Adanacs sponsored a dance in A. W. Gray's packing house to raise funds for uniforms. One of the best crowds ever seen were "squashed" into the small building. Music was donated by the Stoltz Bros. Orchestra and the Ridge Runners, and the sale of ice cream greatly helped to swell the revenue. Supper was served shortly after 11 p.m. The net proceeds amounted to \$13. The club wishes to thank all those who helped in any way to make this affair a success.

The Maroons were unable to play their scheduled game on Thursday night at Oyanas, as it was raining there and the field was waterlogged.

On Friday evening, the local softball girls sponsored a small and quiet dance in A. W. Gray's packing house, to raise funds for softball equipment.

SOFTBALL

Ford Garage And Firemen Are Victors

In the softball games played last Thursday, the Ford Garage and Firemen turned in victories over their country rivals.

The motor boys took Glenmore into camp to the tune of 12-7 to put themselves in a tie for first place with Toc H. On the other hand, the Firemen took the measure of the East Kelowna All Stars 8-2.

All the games scheduled for Tuesday evening were rained out and will be played later on.

Jubilee Girls Defeat East Kelowna

In the girls' game the Kelowna Jubilees took on the East Kelowna entry and, after a free hitting game, came out on top.

Men's League Standing

| TEAM | Played | Won | Lost | Pts. |
|-------------|--------|-----|------|------|
| Toc H | 2 | 2 | 0 | 4 |
| Ford Garage | 2 | 2 | 0 | 4 |
| Firemen | 2 | 1 | 1 | 2 |
| Glenmore | 2 | 0 | 2 | 0 |
| Tigers | 2 | 0 | 2 | 0 |
| Stars | 2 | 0 | 2 | 0 |

Tonight's Games

Tonight, the Toc H take on the All Stars, while Glenmore tackle the Tigers. In the Girls League, East Kelowna plays High School.

BASEBALL

Kelowna Loses To Peachland Through Multitude Of Errors

The Kelowna team in the Southern Okanagan League took another on the chin on Sunday last when they entered the Peachland nine on the local ground.

The boys got off to a bad start in the first inning but only one run crossed the pan. However, in the third inning the winners pushed over three runs, one in the sixth and in the last two innings added eight more to make their total thirteen, while the locals gathered seven for the game.

Peachland gathered four hits up to the ninth inning and added four more in the last inning for a total of eight for the game, while they counted thirteen runs. That just about tells the story of the game.

The locals gathered twelve hits, four more than the winners, but counted only seven runs. That is the game in a nutshell. Peachland played good ball, yet the locals should have won easily but for the very poor showing of the infield, which just folded up right under the nose of the pitcher. It was a very poor display of ball and, if the team wants to get the support of the baseball fans, they will have to turn in a far superior game than they did last Sunday.

Kelowna had umpire errors while Peachland had only two. The locals were far superior at the stick, Newby gathering in four hits in five times to bat and two of them doubles. Selzer hit twice out of three times to the plate and Griffiths twice out of five times. Sinclair, Forbes, Bedford and Broussard hit safely once each.

For Peachland, D. and V. Cousins got two hits each, while Fulkles, Clements and Miller each hit once.

Welter was on the mound for the locals and after a shaky start got down to business and had it not been for the fumbling of the infield, would have got by very nicely. Cousins, for the winners, was not in as good fettle as we have seen him, but he didn't need to be. As it was, he struck out fourteen Kelowna batters during the course of the game.

Score by innings: R H

Peachland.... 103 001 035 — 13 8

Kelowna..... 000 202 012 — 7 12

Kelowna Plays Next At Summerland

The locals travel to Summerland next week-end for their fifth game of the league schedule. While Peachland were playing at Kelowna, Vernon had a good game with Penticton, winning 8-5.

DISTRICT LEAGUE

Winfield And Adanacs Tie

Last Thursday, the Winfield and Adanacs hooked up in a free hitting and error game at the latter's home grounds, but neither could get the decision. The game ended in a deadlock, both teams having scored eleven runs. It was too dark to play any more innings, so the game will remain a tie for the time being. If it is necessary to play it over again, it will take place later on in the schedule. The Maroons were to have travelled to Oyanva, but at the latter's home lot it had rained very hard, so the game had to be postponed. These teams will probably play their game this week sometime.

Adanacs Nose Out Maroons

On Monday night, two tight games took place, one of them at Rutland, where the Maroons and Adanacs hooked up in a real pitchers' duel. The Adanacs finally won 3-2, but only after a hard fight all the way. It was anybody's game from start to finish, with the result being in doubt till the final out was made.

Traveller's Cafe Defeat Winfield

At the Athletic Park in Kelowna, the Winfield nine and Traveller's Cafe had another hard game, with the boys taking the honours 3-1. It was a close game all through and might not have ended that way, had it not been for the country boys not knowing the rules well enough.

It was a tight game and in the last inning that they would have been able to play (on account of darkness) they sent in what they thought was a pinch hitter, with runners on second and third, but they made a mistake, as they put in a man to bat who had already batted in the inning before. This was very unfortunate as, as soon as the batter hit he was automatically out, because a batter cannot bat out of turn.

It was just a case of ignorance of the rules. This incident should be a warning to all managers and players to know the rules; if they will read them, then many of these matters that cause arguments and sometimes hard feelings would be overcome. It was unfortunate for both teams, because it was a good game which turned out to be a hot argument in the end. However, nothing can be done about a case like this, except get to know the rules.

Next Games

The Oyanva boys had the bye for the night. There will be no games this Thursday on account of the holiday the next day, May 24th. The next games will take place next Monday, when Oyanva meets Adanacs at the latter's home pasture, and the Maroons play the Travellers Cafe at the Athletic Park. Winfield gets the bye.

FORD TRI-MOTOR PLANE ARRIVES

Landed At The Rutland Field From Vancouver This Afternoon

The Ford tri-motor all-metal air liner, piloted by Grant McConnachie, veteran of the northern airways, which recently made the first commercial flight from Calgary to Vancouver, via Grand Forks, arrived in the city from Vancouver at 3.15 this afternoon and landed at the Rutland field.

This 12-passenger plane is the largest ever to fly over the Rockies. While the plane remains at Rutland passengers will be taken up on 20-minute flights.

THE RIFLE

First Regular Practice Next Sunday

Commencement of regular target practice at the Glenmore rifle range has been delayed much later than usual this season owing to lack of rifles, the issue formerly made to the Rifle Association having been called in last fall by the Royal Canadian Ordnance Corps at Esquimalt.

Such of those rifles as were any good had all been carefully tested and sighted, and it was expected that they would be returned after inspection, but such has not been the case and the work of adjusting and sighting has to be done all over again in the case of such rifles as can be drawn from the equipment of "B" Squadron, 1st B. C. Dragons.

About a dozen of the Squadron rifles were taken up to the range on May 12th and tested, when about half of them were found to be fairly accurate. It is proposed to test a further number until a sufficient quantity for the use of members is available as many as possible of them will be equipped with the new pattern rear aperture sight.

The first regular practice will be held next Sunday. All who desire to attend are requested to assemble at the Armoury, Kerr Block, Pendolzi Street, not later than 8.45 a.m., and those who will have spare room in their cars are requested to provide for members with means of transportation. It is hoped that there will be a large turn-out, owing to so much time being lost already this season, it will be necessary to pick out teams forthwith for the first team match, the dates for which have been set by the Committee as June 9th, June 23rd, July 7th and July 21st.

Handicap Spoon Shoots

June 9th will also mark the initiation of the new handicap spoon shoots, of which ten will be held in connection with the Rose Handicap Aggregate Cup, donated by G. C. Rose, for the encouragement of the less experienced shots. A handsome spoon, with musketry badge in enamel and engraved "B. C. F. G. A. 1st B. C. Dragons" will be awarded to the winner of each shoot, awarded to the winner of each shoot, awarded to the winner of each shoot.

With regard to the proposed cancellation of the clause which set the maximum levy at two cents, a "blank cheque" Mr. Barrat told Major McGuire that the purpose was to establish a fund for advertising. In Mr. Wolston's opinion, the wording of the substituted section did not indicate provision for this.

The change in Section 15 asked for the power to engage as an agent or servant of the Board the existing fruit growers' association, the object being to finance the B. C. F. G. A. Major McGuire did not think that this would be satisfactory as it left the matter entirely in the hands of the Fruit Board.

When Capt. Burrows asked the Board members whom they represented, Mr. Barrat replied that those amendments were asked for by those who they went to Ottawa on their own responsibility and did not recognize the B. C. F. G. A.

Mr. R. B. Staples: "Were they running hog wild?"

Major McGuire: "They accepted responsibility for their own actions." Mr. Staples: "A combination of Napoleon and King John. Are they all powerful? Is there no court of appeal?"

Major McGuire replied that, in his opinion, a reasonable court of appeal would be found in the Dominion Marketing Board.

Reviewing the brief in some detail, the shippers' representative showed that, if the crop was handled by Associated Grocers and Sales Service, shippers handling 43.7% of the tonnage would be eliminated. In protesting the attempt made to force the deal through two agencies, the methods employed were criticized. The Sales Service wire was filed with the Dominion Board, and the difficulty of securing from the Local Board a copy of the proposed amendments was pointed out.

The Board, he said, was amused at the contradictory statements of the three members of the Local Board. With regard to the straw vote on unified selling, he pointed out that it could not be learned who sponsored the ballot. He quoted Mr. Haskins as admitting in a radio address that the vote was small, and showed the Dominion Board that, in Vernon, for example, tonnage from 500,000 to 600,000 was opposed to a selling agency, and that Kamloops was opposed to either a single or dual agency.

The brief went on to show the considerable investment of the commercial shippers in the valley, stating that there could be no agreement that these could be destroyed while the Associated Grocers were permitted to remain in business. There was room for all independent shippers. The Marketing Board, however, felt that there were too many shippers, and, "to a certain extent," said Major McGuire, "we agreed."

Dealing with the situation from the beginning of the last marketing season, the brief led up to the suggestion of the shippers to form a Cartel, which took the Fruit Board out of an almost impossible hole. Usually, however, the Local Board was not keen to take seriously advice from the shippers.

Regarding the southern deal and the exemption of the Creston area, the brief pointed out that it was not until December 8th that Major Haskins finally gave the information that this area was out. Returns were received from only eight out of one hundred and one licence holders, and apparently no levies were paid. It was not a good situation.

The Dominion Board was told that if the shippers were to remain, they should have a full voice on the Local Board. It was pointed out that an anti-shippers campaign of propaganda and one such address was filed. This policy had been creating discord, and much of it was "unadulterated tripe."

In a talk with Chairman Leitch, a high type of man, the latter admitted to Major McGuire that the shippers

GOLF

Spring Flights Completed

The spring flights were completed last week. The winners were: first flight, R. Seath; second, W. R. Foster; third, D. E. Oliver.

The mixed foursomes final, played last week between H. K. Todd and Mrs. J. D. Pettigrew and H. V. Craig and Miss Connie Hickman, was won by the former team.

Chester Owen Is Club Champion The club championship was captured recently by Chester Owen, with C. R. Reid runner-up.

A team of twenty Kelowna players visited Vernon recently, and had a most enjoyable time. Vernon won the inter-club match.

In the Spalding Cup competition, played at Salmon Arm on May 19th, C. Owen and H. K. Todd tied in the final but lost in the play-off to a Salmon Arm team.

On Tuesday, ladies' day, the monthly medal round was won by Mrs. J. N. Cushing.

AQUATIC RIPPLES

Diving Stand Extended Sixteen Feet

The Aquatic this year will be "twice as good as ever before," to quote Don Wilson, our Jello advocate. The diving stand is extended sixteen feet further out in the water and is entirely replanked along the wharf.

The big room in the Rowing Club building, which will be known headily being improved and gives promise of being the most popular spot on the premises. The general impression in the past has been that this room was for rowers only. This is not so, it is definitely for the use of all the Aquatic members.

Roy Longley Joins Staff

Roy Longley has been engaged as assistant life-guard and swimming coach. He plans on a large class of youngsters, some experienced, some beginners, next month. Roy will commence his duties on the first of June.

The painting of the buildings is gradually nearing completion and the finished product will be something for every Aquatic member and citizen of Kelowna to be proud of, since it makes the Park as well as the Aquatic doubly attractive.

Oarsmen Are Busy

Lloyd Day and his rowers are busily engaged in repairing, painting, and generally cleaning up the rowing equipment in readiness for the present season. The rowers look for another very successful season. Here's hoping!

Fashion Show And Tea

And ladies! Don't forget the big fashion show and tea to be held in the Aquatic Pavilion on Thursday, June 6th. This show will feature the latest in afternoon and evening dresses suitable for Aquatic days and evenings, to say nothing of the smart beach costumes and bathing suits. The Ladies Auxiliary ask your support in this their first effort, which promises to be well worth attending.

RIPPLER

COMMERCIAL SHIPPERS ON WAR PATH

(Continued from Page 1)

request, he secured a copy of the proposed amendments to the Marketing Act from the Dominion Marketing Board. On the same day, he went through the amendments and checked them over with the original marketing scheme. The main difference was found in the cancellation of the two-cent levy. The financing of the B. C. F. G. A. was indefinite, and the situation with respect to Creston appeared to be the same. The Shippers' Advisory Council remained in the scheme.

On the question of a dual agency, Major McGuire had a conference with Mr. E. J. Chambers, President of Associated Grocers, who was in Ottawa at the same time, and Mr. Chambers gave him his final decision that he was not in favour of a dual agency but that he would like to see the agencies restricted to seven or eight, as there were too many shippers operating.

At a meeting with the Fruit Board members and others, Mr. G. A. Barrat said that there were no amendments proposed except those endorsed by the B. C. F. G. A. Capt. Burrows went into the amendments and Mr. Barrat admitted that they were not as discussed by the B. C. F. G. A. and the dual agency proposal was not in. He said that it would be discussed when the members returned to the valley. In respect to the southern area, said Major McGuire, nothing was made clear. The export question was not definitely discussed, but Mr. Barrat stated that the Local Board could overrule the Export Board.

Concerning the intentions of Messrs. Barrat and Hembling on the question of a dual agency, both had definitely stated that they wanted Associated Grocers and Sales Service as the agents, said the shippers' secretary. There was a possibility that sub-agents such as the Occidental Fruit Company, the B. C. Fruit Shippers and others would have been appointed under their plan, with the agencies being held responsible for their conduct, an extraordinary situation.

With regard to the proposed cancellation of the clause which set the maximum levy at two cents, a "blank cheque" Mr. Barrat told Major McGuire that the purpose was to establish a fund for advertising. In Mr. Wolston's opinion, the wording of the substituted section did not indicate provision for this.

The change in Section 15 asked for the power to engage as an agent or servant of the Board the existing fruit growers' association, the object being to finance the B. C. F. G. A. Major McGuire did not think that this would be satisfactory as it left the matter entirely in the hands of the Fruit Board.

When Capt. Burrows asked the Board members whom they represented, Mr. Barrat replied that those amendments were asked for by those who they went to Ottawa on their own responsibility and did not recognize the B. C. F. G. A.

Mr. R. B. Staples: "Were they running hog wild?"

Major McGuire: "They accepted responsibility for their own actions." Mr. Staples: "A combination of Napoleon and King John. Are they all powerful? Is there no court of appeal?"

Major McGuire replied that, in his opinion, a reasonable court of appeal would be found in the Dominion Marketing Board.

Reviewing the brief in some detail, the shippers' representative showed that, if the crop was handled by Associated Grocers and Sales Service, shippers handling 43.7% of the tonnage would be eliminated. In protesting the attempt made to force the deal through two agencies, the methods employed were criticized. The Sales Service wire was filed with the Dominion Board, and the difficulty of securing from the Local Board a copy of the proposed amendments was pointed out.

The Board, he said, was amused at the contradictory statements of the three members of the Local Board. With regard to the straw vote on unified selling, he pointed out that it could not be learned who sponsored the ballot. He quoted Mr. Haskins as admitting in a radio address that the vote was small, and showed the Dominion Board that, in Vernon, for example, tonnage from 500,000 to 600,000 was opposed to a selling agency, and that Kamloops was opposed to either a single or dual agency.

The brief went on to show the considerable investment of the commercial shippers in the valley, stating that there could be no agreement that these could be destroyed while the Associated Grocers were permitted to remain in business. There was room for all independent shippers. The Marketing Board, however, felt that there were too many shippers, and, "to a certain extent," said Major McGuire, "we agreed."

Dealing with the situation from the beginning of the last marketing season, the brief led up to the suggestion of the shippers to form a Cartel, which took the Fruit Board out of an almost impossible hole. Usually, however, the Local Board was not keen to take seriously advice from the shippers.

Regarding the southern deal and the exemption of the Creston area, the brief pointed out that it was not until December 8th that Major Haskins finally gave the information that this area was out. Returns were received from only eight out of one hundred and one licence holders, and apparently no levies were paid. It was not a good situation.

The Dominion Board was told that if the shippers were to remain, they should have a full voice on the Local Board. It was pointed out that an anti-shippers campaign of propaganda and one such address was filed. This policy had been creating discord, and much of it was "unadulterated tripe."

In a talk with Chairman Leitch, a high type of man, the latter admitted to Major McGuire that the shippers

were an integral part of the deal, but he felt that there were too many small shippers. The shippers' representatives replied that, under a Cartel with restrictions, small shippers would be eliminated.

As the result of the shippers' representations and other representations by wire, the Marketing Board felt that it was not up to them to make a decision on the amendments until there was some agreement in the valley. All amendments were withdrawn except that dealing with the election of the Local Board, the date for which, he understood, had been extended one month. Even if there had been no wire from the B. C. F. G. A., said Major McGuire, the Marketing Board would not have sanctioned a single or dual agency under the circumstances.

"We said that we were prepared to come back to the valley and discuss the situation and hoped to reach some satisfactory conclusion," said the speaker. "We asked if it would be feasible for the shippers to put forward a marketing scheme. Dr. Leitch said that the Board would give it consideration, but felt that it would be an unfortunate situation to arise. I feel that the Dominion Board would consider a Local Board of shippers and growers and that it would not sanction a carte blanche levy."

Stating that the cost of operation of the Local Board for the year would run to about \$50,000, Major McGuire declared that the operation of the Cartel office, where a great part of the work was done, would include about \$5,300 of that amount. Concluding, he said he was confident that the Dominion Board would not agree to anything that would put the vested interests of the shippers out of business. He would like to see Dr. Leitch come to the valley and discuss matters.

Mr. Buckland said he was pretty well satisfied that Ottawa would give them a fair deal.

Major McGuire referred to the potato scheme, stating that the buyer paid all operating costs and the fee for inspection, and they had had no trouble. He also stated that there would be another Empire conference in London this year similar to last year, and he felt that Mr. Leopold Hayes should again represent the valley.

With regard to the B. C. F. G. A., Major McGuire said that the Marketing Board had hesitated to name the B. C. F. G. A. in the scheme for the purpose of financing it, as it would set a precedent and others would ask for the same thing.

Following the suggestion that the situation should be studied at a Directors' meeting and later taken up at a general meeting, Mr. Staples declared that "you can't give three men authority without a court of appeal. You can't let them run hog wild. There has to be some control of these fruit boards. They are taking our money and doing damage. The scheme is as good as it is possible to create, but they have discredited it. There is nothing wrong with the Cartel or the scheme, but it does not suit these three men. As soon as the child was born, they began to kick it in the face."

Before the meeting adjourned, the situation with respect to onions for export was discussed and it was decided to appoint three men to contact Mr.

Wilkinson, chairman of the B. C. (Interior) Vegetable Board.

Mayor E. Poole, of Armstrong, who outlined the situation, declared that the Vegetable Board, would be fair and that it had no intention of closing out any existing agency.

The presence of the woolly aphis on apple trees may be recognized by white woolly patches occurring around the margins of pruning cuts and in the axils of the leaves of the young growth. This white secretion covers colonies of reddish-brown aphids which cause swellings or galls on the trees, rendering the latter particularly subject to frost injury later on.

KELOWNA FRUIT AND VEGETABLE SHIPMENTS

For Week Ending May 18th, 1935

| | Carloads | 1935 | 1934 |
|----------------------------|----------|------|------|
| Fruit | 0 | 2 | 4 |
| Mixed Fruit and Vegetables | 6 | 4 | 6 |
